PROSPERITY FOR CANADA

once on the vital points of the nation's c rimental about it. The man

ada depends on our being to the greatest extent pos-sible a producing and selling nation, instead of a na tion consuming the production of other nations. Pro-duction and prosperity, in relation to the future of Canada, are synonymous terms. We are equipped with all the basic essentials for becoming a great pro-ducing nation; all that is necessary is that we avail rielves of them. All the sources of wealth and we than make the United States the wealthiest na-

Look at our natural resources. What are we came, with them? We are turning them over to other coun-tries for their enrichment. Our forests are a heritage in themselves, but we are not drawing the divid-ends. Of the wood we export 61 per cent is sold in the raw and only 36 per cent manufactured or partly the raw and only 36 per cent manufactured or partly manufactured by Cenadian labor in this country. We import wood—13 per cent of it raw and the rest fin-ished. Others are prospering on our consumption. Of our non-ferrous metals we send out 77½ per cent in the raw, finishing or partly finishing only 22% per cent. Of what we import 73 per cent is finished. The profit on the manufacture of our own resources is going to people in other lands-providing dividends or their capital, wages for their workers, building up their towns and cities, increasing their population, en-larging markets for their farmers and all other pro-ducers, giving traffic to their railways. It is helping to

alone. Of our exports of this product a third goo-out in the raw, a third as pulp, and the remaining third as paper. For this rulp we get \$9,000,000 and for the paper \$99,000,000. That is, we are allowing the ole of other countries to make \$90,000,000 on the pulp we export alone. Why do we not make that \$90,000,000 ourselves—pay wages out of it, provide inrreased markets for our farmers, business for our mes chants, traffic for our railways?

Canada possesses between eighty and eighty-five per ent of the asbestos supply of the world. We sell it imost wholly in the raw and receive seven or eight million dollars for it. It is manufactured in the United States and sold for seventy-five million. We ar doing the same thing with our nickel. We receive a much for the thirty per cent of our nickel exports in t that goes out in the raw.

And we have more than the raw materials, from our sports of which other people are making profits. We have a tremendous advantage in regard to their man

nufacture of Canada's raw materials in Car people, employment for newcomers, hireer court neonle. It means traffic for our railways from It means a distribution of the burden of taxation over a larger population. Work and wages and the profits of industry will keep our own people in Canada and

asive policy is not alone a policy of tariff protection gainst impure, it proposes the conservation for Can-dian development of our escential and irreplacable isources in material and power. That part of the woods by Ht. Hon. Arthy Meighen on June 2 tion. Changes are being effected so fact nowadorship on that phase of the policy Mr. Mei-erking on that phase of the policy Mr. Mei-chardt "I want to say that the time has come

domestic markets to their

trying to get into the United States be letioned to create such conditions A United Sims obtaining in that country than in, oth ettributed these conditions to r riy. Here, in part, is its b

"America is a land of high wages and large kes large wages because there is large buy ing. The wage earner buys an automobile, a radio set, a phonograph. He spends.

"All Amereia spends. A French peasant saves. He

is the great example of thrift. His life is one of hard is the great example of timit. His life is one on naru toil, soup, and an occasional fowl in the pot. Proper-ty remains in families for hundreds of years. Life does not change or broaden. "The American spends. His whole life is geared up

to spending. Foreign markets are important, but the American spender makes the great domestic market for American industry. Americans are living by tak-ing in each other's washing. It is not so bad a way, It is a conversion of work into things desired in

The means of prosperity and wages and comfor are in our hands. We have only to avail durselves o them. If we do our people will never look with envy on those of other lands.

WAR ON FLIES

clare war on flies; they are your enemies. As a result of study and close observation, both Canals and in the United States, we have concluded a male yappa con, howe a monomorphism is immunified to the for form that the first proposable is a terminated to the form of the proposable of certain central products and the products are the first as a fig. at the winter those besuitful and give binds may be which draws the virus of a contagious distant, from a visit you, and if no, take a good book, for they may called that high contract that products are the products and the preferry healthy at that purchase. Canada and in the United States, we have concluded a male young one, shows a mixture of al sting, to a child who is perfectly healthy at that par-ticular time, and thus cause the development of the

This fact explains why, for the last few years a care saign is carried on "in the rpring" with the ob-

tect of destroying the flies.

But Dr. D. B. Arnattrong of the Metropolitan Life Laurentide Avisina company, declared is "was up to brown a new light on the subject. He points out the Canada to put forth an effort compatible with the instability of the companied of the companie mosts a low sign on the subject. He posits out the | number to be seven as more companies, now that it is such as a position as a rapidly graving force in a the fall season that it is in the point, and the his world. "It is nothing post of a share," be submore for it is very submore for it is very submore for its very submore is the sevent, be hill, "that while for event of the following its take seving, the hill," that while for event of the following states in the desire of the of the order of the following of the order of the following of the sevent of th ressing of the power of incubation involving one ing are available in Canada today. This is simply undred flies. It is therefore, just as it

To suppress the flies means to help in the move

STUDENT BODY

to accretain that whereas forty years ago there were approximately 60,000 college and university students in the United States, the number today is approximately 40,000 college and university students in the United States, the number today is approximately for potriotic purposes. I students had million That is. as the Carled Sates, the number today is approximately a half million. The ingrace is thus shown to be short 700 per cent. in comparison with a population [classiful Alf-Serve: Reveals. Let yill be controlled to the controlled t ing to? To the professions, it seems, on the unset of total population, the increase in the percentage of those taking higher education in the United States is duplicated in Canada, where for years the over-priority as displaced in Canada, where for yease the over-crowding of the professions har been pointed to with alarm. The statistical expert whose figures we have scoted declares they prove that the liveal of an educated democratic is being achieved, end, he might educated democrass, is being achieved, and, ne man-days addedbut dida't, if the increase pensists it will not be long before korny-handed sons of toil become extinct. That nine-tenths of the present student body experience entient. That nine-tenshs of the present attacks body "speciescos." as we heldered operates also did not brinkeries ap Col. "On the inside"

YOU often hear someone say enviously: "John Jones surely was lucky. He was 'on the inside'and knew when and what to buy. That's how he made his pile."

It may not be possible for you to get "on the inside" of many investments-but you can be an "insider" and save money in the things you buy daily for your home, business and pleasure.

Reading the advertisements lets you in on the inside. You can read them-study them-compare values--make your decision--before even you enter a store. You know what you want--what is safe and wise to buy. You don't have to take a chance on an unknown product.

The outsider--the fellow who doesn't read the advertisements-has to buy anything he sees-and he may see wrong!

Advertised goods are reliable

MEIGHEN TALKS IN OWN RIDING

Declares Liberals Always Faking on Free Trade Policy

FOUR YEARS OF DRIFT

Progressives in House Were Merely an Appendage Hanging on Govern-ment's Coat-Tails

Oalwille, Man, Ort. 1.—"Seen in the Progression Prety there are pro-tectionists to-day," declared it. I.D.n. Arthew Milesten, in the course property of the property of the constituency of Portage. In Prairie Perr, The Liberal were, and slaveys had been, faking, he said, in their constituency of Portage in Prairie per of the Chieseal Progression polici-had resoluted in the erigipline of conferencest of whole trap pre-cipitation because of uncertainty of many more. "Art you sattled with this result" he asked. I'll you are, defit." Oakville, Man., Oct. 1,-"Even

rift."
In spite of rain and sleet and sired roads, the hall was well filled. Hon. Hugh Armstrong, former men ber for Portage la Prairie in the the Manitoba Legislature, was the fire speaker. He found himself unable he said, to find that the Liberal par

reaster. He housed museus varieties by the feeler politics had any politic as at 1, 1 and 1, 2 and 1, 3 and 1,

with the work of the exemption tri-bunal for the district. He would give a freat deal, he said, to know give a Lyrat deal, he sald, to know who were circulating such ramors. Passing to "subjects that realy count," Mr. Meighen saked his su-dience if it did not find that "most of the talk sout iniquities of the tariff is all humbog." He said that H. W. Wood, leader of the Alberta farmers, had recently declared pub-licly that the sairiff was not the real issue in this election, and that its la-portance was being greatly casegori-

RAILWAY PROBLEMS

Right Hon: Arthur Meighen devotes a great amount of attention to the railway question in his election eches. He is perfectly right in keeping this im-tant subject to the forefront, and he is certainly correct in supposing that the public expects a policy fliciency combined with economy, Premier King as he has pursued such a policy, but we must judge from results. Great things were predicted and promised, but the promises have not been fulfilled nor the predictions verified. What we actually find is a tendency to spend lavishly on the system— no doubt with the best intentions, and the possibility of future returns. The country demands however, that rns be immediate, and that a halt be called to expenditure which are not absolutely es cential. Mr. Meighen is in full sympathy with this demand. He has no patience with appropriations for what he terms "luxuries" so long as the system fails no construction of new lines until the present lines Bishop of Bradford, acquirement of elaborate office buildings, etc., so long as existing arrangements sufficed; in a word, for a world no longer ruled by violence, there would be no attempt to outdo rivals by the leve, French Ergmier. oding of new capital" into the system for unne-

ciate the desirability and, indeed, the necessity of eliminating superflous and wasteful competition, and have publicly expressed themselves to that effect. In seech the president of the C.P.R. dealt with the ation in the three prairie provinces, where, he said, there were approximately 25,000,000 acres of and, there were approximately 25,000,000 åeres of vacant land suitable for cultivation within fifteen miles of the awo raitroads. This territory should be developed as much as possible before any extra, milroad building was included in, be declared. The majority of electors will agree with Mr. Patenaude when and a vector will agre with Mr. Patenade when the agree Till in the day of the people and the gere list dawn look and the form the same the real-ways a stepole in the anternal tendent to the dark."

The way that dawn look are listed to the dark. The way that the look are listed to the dark. The way that the will instantiate the consequent that the vector will real tendent to their, so that there will instanticly discogned that that there will immediately disappear this mad race. There is nothing but pure loss in exploiting two par-allel lines. Is it necessary that the people make the govirument adopt a clear and immediate policy on this matter, It is four years since Mr. King said he uld settle the railway problem. Is it no

Fall unturls her Banners Nature calls the city dwellers

Nature calls the city dweller at this season. She is yielding her crops of grain, fruit and vegetables. She is dreasing her trees and shrubs in gala attire. The green of summertime is breaking into resplendent reds, and gold, and burnt copper.

Everywhere in Ontario good roads lead past good scenery. You may spin by laden orchards or colorful farms, or you may go further afield to spots where Nature meets you unadomed; but everywhere the mellow fruitfulness of Autumn is in the air, and the blue haze beckons.

Mile after mile of improved highway will bring to you a realization of the immensity of the good roads problem and the money and work which must be devoted to construction and repair.

You have a responsibility, for by the manner in which yo use the roads you may save or destroy them. The law place the maximum speed limit at twenty-five miles an hou Every mile above that means needless damage to the road Do not exceed the speed limit. Money for repair work comes from you, and other users of the roads. You will display public spirit, as well as self-nterest, if you drive sanely and intelligently.

While the Government is receiving co-operation from the great majority of, those who use the roads, it gives warning telephene that the provisions of The Highways Act in regard to fast driving are being rigorously enforced.

He didn't have the energy to fight

Lost ... another big order the fourth defeat that day. All because he didn't have the energy to fight when his prospect said "No." Something had blumted his senses and stolen his strength.

That "something" was constipation.
What a shame so many people suffer from constipation when there is an easy, pleasant, sure way to permanent relief—the regular use of Kellogg's ALL-SRAN—two tablespoonfuls daily, or in chronic cases, with every meal.

Kellogg* at Laran is what doctors call a bulk food. As it travels through the system, its fiber remains unchanged. Therefore, it sweeps the intestine clean and drives out the vicious poinces of constipation. ALL-BRAM also absorbs and carries moisture through the intestinal tract, stimumous tracks of the control of the c

neing it to, healthy, normal extens. ALL-man and the state of the sta

"Generous To A Fault"

London, Oct. 3.-Generosity all round was extended to two shop breakers in Hastings whose excuse for hav-ing committed the crime of shopbreaking was that they were desperate for want of food. The constable who arrested them divided his supper between the pair, The Magistrate who sent them up for trial gave them ten affilings. The Judge at trial bound them over to keep the peace instead of sentencing them to prison. Several of the jurymen who heard the case gave them money.

SINCLAIR'S

Coats Moderately Priced

The lower priced Coats are shown in great variety of style and shade, and every one is fur-trimmed. The flare insists on a place on nearly all coats this season. Fine qualities of Velour or Suedine are used with trimmings of dyed opossum, coon, mandel or sealine. Some unusual values are shown at \$18.50 to \$37.50

Cloth Dresses

Cloth Dresses always form a most useful part of ones wardrobe, and this season they are parti-cularly good looking models to choose from. Fine fabrics are used, such as charmeline, bengaline, fancy flannels and balbriggan flares, side pleats and godets all help to give the desired fulness. A full color range is shown.

Prices from \$9.00 to \$29.50

POEMS Old And NEW

feared as years rolled swittly he That youth would fly one day, and feveriably I, sought a charm. To drive old age away, wandered far through many a c And found a wissed old;

Within a lordly palace gate,
He led me to a queen.
Had ahe this priceless gift of youth?
A long life she had seen,
And never a wrinkle crossed her bro
Her hair was shining gold;
Yet she was tired of life, she said,
And she had long felt old.

THE FAPILT OF THE AGE
The fault of the age is a mad endeave
To leap to brights that were made to
climb:
By a Surst of strength, of a though
most clever,
We plan to forestall and outwit Tim

Leola Dale's Fortune

The broad space in front of the trance was lined three deep wit riages, and it was some time before numerous guests could get away. Amongst the last to leave were Ph Dyce and Lady Varr.

As the carriage rolled down the dr Philip Dyce bent forward and looked

·Lady Vaux shrugged her shoulders. "Yes; I flatter myself I played my

part well."
"And it succeeded?"

4 Cylinder **Overland Coach**

A Value without Precedent; at least One Hundred Dollars less than any other Coach

At its new low price the Overland Coach is a value far beyond comparison.

It is a full fire-passenger car . . . with polished, blue finish of permanent beauty . . . big car distinction in everyline . . on picee windshied . . . doubt beading at the waistline. Big 27-horsepower engine . . rugged cardes of toughest steel . . . easy riding patented Triplex Springs that carry you like a cradle . . oversite brakes . . . extremely economical on gas, on oil, an upkeep, See this handsome car. Ride in it. Drive it your-self. Terms are easy. Only a small amount down.

WILLS & GRIBBLE Corner Front And Station Streets

BETWEEN YOU TREACHEROUS ROADS

Safety as well as comfort depend on the tires you choose. There is a safety lesson in the example of the great racing drivers, whose lives are dependent on tire-performance. Over a period of three years, these "aces" of road and track have driven

to victory on tires built by the Fire-stone Gum-Dipped

At the Canadian National Exhibition Firestone Full-Size Gum-Dipped Balloons won the most important race of the meet while in the West this summer, new Canadian records were set on Gum-Dipped Cords.

In the construction of Full-Size Balloons—the easiest riding and safest tires ever built—this extra process is no less vital. It puts the extra strength into the thinner sidewalls needed to withstand the extra flexing strain. Gum-Dipping insulates ev-ery fibre of every cord with rubber-

minimizing destruct-ive friction and giving greater mileage and added economy.

Firestone Gum-Dipped Balloons give a cushioning, gripping protection that will carry you over fall and winter made with amazing comfort and safety. See your nearest Firestone dealer, He will equip your car quickly and at

Let there be harmony in things essent in things not essential—Charity in all

A.NEW GREAT LAKE through the Illegal stealing of water by the cit Chicago, has reached a critical stage. Navigation impeded and veneta are actually running aground ough the selfish and unlawful action at the Sanit-District. The courts have found against the Chi-o authorities on all points and have ordered them s make amends with the least possible delay. topped, and in the meantime the inconvenience, lound dangers of the shrinking water supply will rea source of bitter grievance to those injuriously ed-which includes the majority of people in province. Chicago must be made to mend be this province. Chicago must be made to mend be ways. It is not possible, however, on humanitar-ian grounds, to compel an immediate cessation of the water diversion to the Mississippi which is responwater diversion to the Mississippl which is respon-sible for all the trouble. Is there say out of the difficulty? According to Mr. C. Lorne Camp-bell, a Toronto railway construction engineer, then is. His scheme is so vast as to appear almost fahtas he has generic as we are as of special most many hig and seem-ingly impossible things are undertaken and brought to successful completion in these days that it is not wise to Judge harilly. If the plan really would accom-plian at that is claimed for it by its author, it is cer-

plais all that is claimed for it by its author, it is cer-laidly worth serious investigation.

What Mr. Campbell proposes to do, put briefly, is to create a sixth great take by the damming of the Albany and Ogoli riven, drain this new labe (which would be two and a half times as large as Lake Ontario), by means of a canal to Lake Nipigou, into Lake Superior and so supply a large additional flow of water to the Great Lakes system—almost twice as much as that diverted from Lake Michigan by the " says Mr. Campbell, "ahe set down two great barriers running east and west and narrowed then toward the east so that the waters should accumulat the neck of a bottle and flow through this neel Albany) to the Arctic. To the west these height nd also converge. Plug the neck of the bottle with a dam and the waters are held back and apread over the area between the two heights of land. There you the area between the two brights of land. There you have your supply. The next step is to get the water into the Great Lakes. Here again Nature has been working with us. Only a few miles lie between your great storage basin or artificial lake and the neck of other bottle which gives entry to the Great Lak

another bottle which gives entry to the Great Lakes system. . . By cutting a cantil through the south-erly height of land we can get into Lake Nijeigon, through Nippion river and into Lake Superior." . The land to be flooded for the new lake coinsist for the most part of forest, rock and muskey. The timber to be quit-druen could be printibly disposed of by floating down to mild boilt to deal with it. eme would give employment to at least 20,00 men for from six to eight years, while Ontario would benefit not only by the relieur of the water involu but by additional electric energy so secured. The
value of this alone is estimated by Mr. Campbell at
210,000,000 annually, wiftout any capital cost. Valuatter to the union soft coal miners. T \$1,000,000 annually, without any capital cost. Valu-able mirrest I reviews, it is altimed word 1 be operated up by the new liek; to exp solitive of a sporting area, probably the greatest fish and game compity left on the continent." The question of cost is, of course, one of the main factors in the construction. It is esti-mated, that the total expense would amount to be-tween \$110,000,000 and \$100,000,000. Toward this, it is ed the United States would be willing to pay her share; "Chicago would be apportioned her sha bif the cost, based on the rectifying of her probles and the savings effected"; the Dominion should tribute "that share which justly might be requ elected, but would be provided with the addition organisation undertaking the con to be handled in trust." Such in brief is the achem for the public to judge whether we should go to all this trouble and expense to oblige Chicago, which has

AS TO RAILWAYS

In 1880 the Libtrar party officery opined the builtie of the Camadish Pacific Rallway west of the R ouf the country that Canada was threatened wit financial ruin for the sake of 12,000 white people i British Columbia. Every member of the Liberal pa Machanina and Sie Wilfeld

and the Cor keep the solemn pledge given by Can-Columbia at Confederation.

In 1881 the Liberal party of

In 1811 to Liberta party opposed a loan of 180; ton for year and was just asked to lock at, compared 200,000 to the Canadian Parlied Railbury for the years with the same hild alive. Also it is spinist the law at fore present to canade it to complete in line fire to harmy those hirds.

180 fasted of 1801 - Ton's cally it's loon, we shall find. A young chap was finding. Noticer lower there were see a pump of the money happin, "and Mee, indeed, and the called the fire of the loans. In the law of the loans, the law of the loans and the loans are the loans. The line. He poiled it is any of the dwarf was the poor Tac. C. P. L. was completed in 1805 and error well loon, capity by the wing. of the loan was repaid with interest when it was due. Such was the Liberal attitude towards railways when

in opposition, but not when in power.

It was the Liberal Administration that built the National Transcontinenal Railway and the bonds of the Grand Trunk Pacific.

The figures given by Sir Wilfrid Laurier as to th esque and were exceeded by many tens of mil

The Co the C. P. R. list from North Bay to Fort William on the ground that a duplicate ine through a portion of the country so sparsely settled that it could never

ent secolies the C. P. R. (miss North Pay of Fort rouge have running rights over it. To build two no haps three railway lines where one railway line with running rights over it will serve the same purpose is sie waste." Sir Robert Borden also urged a Liberal Adminis on highway across the Rockies.

The same Liberal Administration then by being the Canadian Northern Railway and ende this third parallel line with very many millions of lars of public money, Today the folly of the Libers Railway policy is known to every one. We are payin interest on the hundreds of millions of dollars los in the duplication of those portions of the two tranestimental lines which Sir Robert Borden declare twenty years are would be economic waste.

CAUSE OF THE COAL STRIKE

miners in Pennsylvania was not brough of any grievance suffered by the mine themselves. They are among the best paid of Ameri-can wage workers, and the general belief has been that the demand made in their behalf for an increase that the demand made in their behalf for an increase of pay was not made in the expectation that it would be granted. According to the New York World, the strike was precipitated for a reason not related to the pay of anthractic minera. It is explained that when John L. Lewis, president of the United Mine Workers. ucceeded early last year in forcing upon the bit nous coal operators the Jacksonville agreement, which the operators bound themselves to maintain aster to the union soft coal miners. The non-union ply the bulk of the requirements for bituminous coal.

Many union mines closed down, and the union miners migrated to non-union territory to find employment. The New York World says it was to extricate his

drive to unionize the butiminous mines of West Vir-than Sir Wilfrid Laurier need ginik. He might save his threatened prestige by the strike, for, even if the demand for increased pay were not granted, the suspension of hard coal production would increase the demand for soft soul; the price of reachle the union mines to pay the Jacksonville wage scale, and might also belp him in his endeavors to un-ionize the mines of West Virginia. "He is staking verything," says the New York paper, "upon his war, and then we have had way. Don't we all

old weather." It seems odd that millions of people on this con or to pay more than a fair price for it in order that That is an exercise of power infinitely more op than was that of the most predatory of the robb barons in the middle ages.

CHILDREN WITH DEFECTIVE SIGHT

There are far more of them than most people suppose. They may or may not be backward at acbool. But it is exertain that they do not progress as they would if they had the help of glasses. Parents don't take it for granted that your work of the second of take it for granted that your children have normal sight. Let me tell you the FACTS for the present and future welfare of your children. Positively better service is not obtainable at any price. By appointment,

The DALY INTELLIGENCE THURSDAY, OCTOBER 8, 1928

THE THURSDAY, OCTOBER

"Canada, Canada, land of the beaver, Labour and skill have their triumph to-day; Oh! may the joy of it flow like a river, Wider and deeper as time flies away. Bells, chime out merrily, Trumpets, call cheerily, Science and industry laugh and are gay." -John Reade.

· It was a magnificent Canada that John Reade pictured when he wrote his celebrated Ode to Dominion Day,—a Canada that was in a very real sense the land of the beaver,—a Canada that was abundantly prosperous under the dominating influences of science and industry!

But his prayer that her progress might flow uninterrupted like a river has not been altogether fulfilled. For the past few years the picture of Canada as he painted her has been turned towards the wall.

Inder the withering policy of cancelled protection, Canadian science has become little more than a handmaiden to the United States, Canadian industry has languished and contracted, and the Canadian beaver finds a shadow on its right to pose as our national emblem!

The Exodus of People to the United States -

The cream of our youth, fresh from schools and colleges where they have been brained in the arts and science, ere leaving the homes that have raded then, are foreaking the country that has educated them, and are throwing in their lot with Canada's greatest rival.

tiem, ann are turowing in their for wint consults in growth convertible.

Rative-boar scientists, written, artists and mixed with creptions of the convertible of their talents. Many of our ablest business executives are similarly lost to us because of the tempting offers they receive from across the border.

oners they receive irom across the borner.

Canada cductes these young men and young women at the public expense-brings along a new lot of them every year—for what? For Uncle Sam to take his pick! And the irony of it is that when he gets them, he frequently employs them at tesls that result in loss of business, loos of employment, to people in the country of their birth!

The Exodus of Material to the United States

But it is not alone of people that the United States has been bleeding us. It has tapped our storehouse of raw material as well, and is slowly but surely depleting it.

Canada is foolishly selling her forest products as raw materials; when she might be selling a much larger proportion of them as paper, or as highly finished articles of wood.

Canada is foolishly letting United States millers take her hard wheat, that makes the best flour in the world, and grind it into flour to supply foreign markets, when she might be supplying those markets herself.

consign nameets, when she might be supplying these markets been considered in fooliably inviting United Strands in fooliably inviting United Strands extend the consideration of the Consideration of

Economic laws do not work one way for one country, and another way for another ! Repeat the cause, and inevitably you repeat the effect!

No country in the world is more blessed than Canada with the things necessary for rapid and sustained progress. All she needs is men and money to develop her resources. And these she can get if she goes after them properly!

Being still what is commonly known as a pioneer country, Canada should be attracting population from lands that are more congested. But at present she isn't! And the reason she isn't, is that she is doing nothing to assure the prospective immigrant a steady job at good wages! •

You Cannot Make Bricks Without Straw

You Cannot Make Bricks Without Strau
Canada cannot hope to attract immigrants so long as her own people
are leaving her in thousands, and going to the United States
She cannot possibly compete for immigration with the United
States so lodg as her manufacturers are described to the states of the

If Canada wants immigrants, it must have healthy industries.

And if it is to have healthy industries, it must protect them!

But by Using Good Seed You Can Grow Fine Wheat

Canada ahould aim to use not only her own resources, but due raw materials available from other countries, to build up industries for herself.

The United States has managed to build up huge paper, sixed and asbestos industries on the basis of raw material large.

The United States produces no raw silk, no raw rubber, and veccilittle raw sugar of its own, yet to-day it possesses the world's greatest industries in those lines.

Such industries have been a big factor in swelling that country population, and adding to its prosperity. If Canada were to dress similar industries in the same way that the United States has diversity them, there is no reason why she could not swell her population and d.t. other prosperity in proportionate degree!

Embrace Protection and Prosperity Will Be Ours!

QUEBEC'S CONSERVATISM have been Leader of the Liberal party, no of Canada. The leads

he has physical to him a resultant in Newsoniana constraint of the him a resultant in Newsoniana constraint of the Nikips.

Contemporability focis that is the poid any debt freezion in the point of the property of the prop Sendon in naturally a professional province said II are for the cent landauty. The world's alspires, for the measurement is also the imms of protection stensible methy meet of the greatest commerce of one, is turn-bation to system, the hold of the Liberal machine on jay to cell more and more each year, and approximate the Lower persions with the between. The format Cells the day is not far distant when no allo burning also idic Grands is properly alamed over the drain to the wind to a taking of the past, that is if the cell holds Clark Bation II has it nover a sentime which lavel upon.

Benale feeling in queece, where the function of the properties of the organization of the rights of min-lypper Chember as the defender of the rights of min-ed to be access—200,000 miners receiving unemploy-britism ill-understood as nowhere clee in Canada.

ment pay, and five hundred collicies had closely Thus, two of the issues of the present camp issues upon which Quebec can be depended strongly to the Conservative side,

A NATIONAL POLICY.

Phrases that enter into common speech sometimes after the fate of coins that are so freely handled that the superscription wears off. The real meaning of the phrase "National Policy" is often forgotten. The policy was designed to make Canada a na-The policy was congred to make Canada a Ba-tion, to make the people of Canada interdependent among themselves and independent as regards other nations, particularly the United States. It was dearmy of workers, who in their turn would support an

States under reciprocity or free trade arranthey might get elsewhere, by sperificing the ne market for manufactured goods, the theory was ng for the make of Canada.

Is Canada worth making sacrifices for? Half a Is Canada worth making sacrifices for? Half a following maint follows thought a when the var was two. Did ever a nation mole itself nightly when goeth individual cities the hought of nothing else but making the control of the contr the war, there is only one fiscal policy that the backbone of the state. That is a policy

PESSIMISTS AND OPTIMISTS

tive leaders. If they have gloomy for bodings as to Canada's future under four year more of Mr. King's amateur statecraft they are justified. But they have never expressed doubt abo tified. But they have never exprossed doubt about the innate strength of Canada. They say that Can-oda is the bost country in the world and that all it needs is half a chance to prove it. They say that Canada is in a bad way today, but that with a roper tariff policy Canada will be bounding towar emorrow. This is not peasimism

When the Northcliffe press revealed the fact the shells were not going forward fast enough to th Tritish army in France was that possimism? Was when Linvi George was made Ministe smity howler, almost a pro-German at the time. But later on it was recognized that he had laid his fel-low countrymen under a tremendous burden of gratlow combryines under a tremendous burden of gra-lited through his so-called pessimism.

Those who say that Canada is doing as well now as also ought to do are the pessimists. They are the disparagers, the slanderers of the country.

CONTEMPORARY OFINION

WHAT THE PLEET MEANS

A COMPARISON

OUR POLICY WHICH LED TO VICTORY OUR BATTLE CRY:— "PROTECTION TO HOME INDUSTRIES." RESOLUTION by Sir John Macdonald in the House of Commons, for the National Policy,

and by which he swept the Country: "That this House is of opinion that the well

fare of Canada requires the adoption of a National Policy, which by a judicious read-justment of the Tariff will benefit and foster

the Agricultural, the Mining, the Manufact

urer and other interests of the Diminion; that such a policy will retain in Canada thousands of our fellow countrymen, now obliged to ex-

of our fellow countrymen, now obliged to ex-patriate themselves in search of employment denied them at home; will restore prosperity to our struggling industries, now so hadly de-pressed; will prevent Canada from being a

sacrifice market; will encourage and develope

an active interprovincial trade; and moving (as it ought to do) in the direction of the re-

ciprocity of Tariffs with our neighbors, so far as the varied interests of Canada may demand,

will greatly tend to procure for this Country, eventually Reciprocity of Trade".

220

to himself or his wife that motor

oling to Canada. Here are the figures

SIDE STEPPING

IN Datasic grows of registables and perishable finite are face to face with strong American competition, while encluded by a probabilities until from the American boret rithe. Liberal encludates in Southern Ontario possitioneries are being interrogated as to what the Government proposes to do to remedy this mijner anomaly. The stock answer they make in solidows: In announcing an appeal to the county Mr. King excused the very bad record of his administration on the ground that the Senate and the Progressives tied his hands.

The Liberal Government is returned to power was sake the tarif out of politics. It will appoint a Com-mission which will investigate every demand for tariff increases; and will then decide on a course of action that will give the producer a fair deal."

This sounds plausible, but it is specious as the

presenced show, will not be persons of expert knowl-edge in connection with the problems they must av-judicate upon; they will be representatives of some

calar sector of Canada.

(3) The Government does not propose to delegate to the Commission, any executive or administrative powers whatever. Its function will be confined to ination and reporting on the facts as it sees them. repair? Certain people, possibly of the kind that are ties must come from parliament itself, and more concerned with the future of Florida than of Remedies must come from parliament itself, and containing the government caucus, dominated by

them talk it would seem as though they were willing to thrust the whole fabric and organization of Can-adian industry into the discard for the sake of cheap some consummant to more-teep rocus generatees and ev-side the major issue of the campaigs, which is pro-tection. 'Mr. King's candidates promise a "fair deal" is -individual groups of producers, while Mr. King himself talks of reducing the cost of living and elim-lesting the protective principle of the tariff. He waves ande as unworthy of consideration the home market er "Flivvers." who want chesp automobiles have had plenty of op-portunities to gratify their desires in the number of vital to the producers of perishable friuts and veget-ables. If Mr. King is sincers, these producers may arbitle for a "fair deal" until kingdom come, what-

That adroit rhetorician, Hon. William Lyon Mackensie King, has coined a new phrase in his private alogan factory. It is "No monopoly on land or ees." But in his case is that phrase as sincere as it sounds: But in his case is that phrase as sincere as is remeal.

DOMINION BANK

"On the inside"

YOU often hear someone say enviously: "John Jones surely was lucky. He was 'on the inside'and knew when and what to buy. That's how he made his pile."

It may not be possible for you to get "on the inside" of many investments-but you can be an "insider" and save money in the things you buy daily for your home, business and pleasure.

Reading the advertisements lets you in on the inside. You can read them-study them-compare values -- make your decision -- beforeven you enter a store. You know what you want--what is safe and wise to buy. You don't have to take a chance on an unknown product.

The outsider-the fellow who doesn't read the advertisements--has to buy anything he sees--and he may see wrong!

Advertised goods are reliable

"On the inside"

YOU often hear someone say enviously: "John Jones surely was lucky. He was 'on the inside'and knew when and what to buy. That's how he made his pile."

It may not be possible for you to get "on the inside" of many investments-but you can be an "insider" and save money in the things you buy daily for your home, business and pleasure.

Reading the advertisements lets you in on the inside. You can read them-study them-compare values-make your decision-beforeven you enter a store. You know what you want-what is safe and wise to buy. You don't have to take a chance on an unknown product.

The outsider-the fellow who doesn't read the advertisements-has to buy anything he sees-and he may see wrong!

Advertised goods are reliable

(By Canadian Press)
Lethbridge, Och. 12—Questions were fired at the Right Hon. Arithur Meighen from every part of the House at a meeting here Saturday night. The cost of living, the practicability of a Protectionist Policy in an agrarian community, and the probable effect of higher tariff on the prices of the necessaries of life, were the principal sources of the necessaries of life, were the principal sources of The conversation leafer multiple to the necessaries.

Sixty Years of Service to City

CANON SHATFORD PREACHED HERE

TO TWO CROWDED CONGREGATIONS HIS MESSAGES ELOQUENTLY GIVEN

> The West and Protection (By Canadian Press)

The conservative leader rapited to the questions one by one affirming his conviction that Protection was neces-sary for every part of the country and every industry in it, the farmer as well as the manufacturer. Mr. Meighen and

the larmer as well as the manuscrier. Mr. Meighen and his party stated their arguments for fiscal reform and urged that higher-tariffs were necessary alike for the yest. Son-ator-Robertson said that the lartiff reductions had so de-pressed industry in Canada: that, in the last year alone, 143,000 people had gone to the flighted States-to look for

OUR POLICY WHICH LED TO VICTORY OUR BATTLE CRY:— "PROTECT-ION TO HOME INDUSTRIES." RESOLUTION by Sir John Macional in 'the House of Commons, for the National Policy,

House of Common, for the National Palley, and by which the rengt the Confect;
"That this Home is of epition that it bewriter of Candar requires the adoption, of a National Policy, which by a Judicious read-to-intense of the Thirty will benefit and fourier than the Policy with the Manalest that Agricultural, the Malainer, that we will be the confect of the Policy will retain it Common with the Confect of the Policy will retain it Common with the Confect of the Policy will retain it Common with the Confect of the Policy will retain it common with the Confect of the Policy will prevent. Canada from Judge a macrifice market the illinearing and policy will prevent. Canada from Judge a macrifice market the illinearing and object on the Confect of the C presently "will prevent Canada from being" a scriftice market; will secontage and develope an active interprevincial trade; and moving (as it ought to do) in the direction of the re-ciprocity®M Tariffs with our neighbors, so far as the varied interests of Canada may demand, will greatly tend to procure for this Cointry, eventually Reciprocity of Trade",

CONTEMPORARY OPINION

eral convention for Prince Education

as the Ministry which Hou, W. L. M. King formed after the general elections of December, 1921. King's "Originals" have been decimated in a degree paralleled by the de-population which has canaded certain canufacturing towns during his regime. Practically all of the elder statesmen of the party which assem-bled at Ottawa to choose a leader after the death of Sir Wilfrid Laurier are now in retirement. Some be cause of frank disagreement with the policies of their leader, some with ill-concealed belief that he is fac-

minfortune to lose by death the most brilliant of younger advisers, Hoh. W. C. Keinedy; but had latter lived it is known that he would have refused o endorse his leader's tariff-paring policies. The withdrew through ill-bealth, but had already withdrew through ill-bealth, but had already two proof that be disappeared of separate treaties an other of Mr. King's personal policies. The two or Ministers selected to represent Quebec is out of the battle.—Sir Lower Goula, Hos. H. S. Behard and the Jacons and the selection of the contract of the cont battle,—Sir Lomer Gouin, Hon. H. S. Beland a Hon. Jacques Bursus. It is an open secret that the considered King's tariff policies fatal to the country interest. Hon. Charles Murphy and Hon. A. B. Cop have sought refuge in the Senate, because they cou have nought refuge in the Schate, because day not be re-elected in constituencies for a gene known as Liberal strongholds. Hon. E. M. M. ald is in a similar plight. He is seeking nomi-clocwhere because he knows he cannot be elec-Pictou, which he has represented either in the Legis for twenty-four yers all could not secure re-nomination in Kent down to certain defeat in a Toronto Raoul Dandurand, Liberal leader in the Switzerland far away from the scene of conflict, an Liberal stalwarts like McGiverin of Ottawa, Me Master of Brome, and Hudson of Wini

TWO CANADIAN TEAMS

"On the inside"

YOU often hear someone say enviously: "John Jones surely was lucky. He was 'on the inside'and knew when and what to buy. That's how he made his pile."

It may not be possible for you to get "on the inside" of many investments-but you can be an 'insider' and save money in the things you buy daily for your home, business and pleasure.

Reading the advertisements lets you in on the inside. You can read them-study them-compare values-make your decision-befor even you enter a store. You know what you want--what is safe and wise to buy. You don't have to take a chance on an unknown product.

The outsider-the fellow who doesn't read the advertisements-has to buy anything he sees-and he may see wrong!

Advertised go ods are reliable

TARIFF STABILITY

their platform and presched the doctrum on sep-portia's conditionative, but come again, as in 1869, oring attained office projection continued without self change no longue Mr. Fletding remained in ser-er serving as Minister of dynamos. Indeed, Mr. Fredd g'exposury repodiated the 1919 Liberal platform of se-trade and commitmed as he had done from 1800 180°C to athere to protective principle. And it was account of the contraction of the contraction of the Liberal Conference to pro-

accol would remain in effect analysis to adjustment of pass constitution from time to time. After discuss in the value of santi stability Mr. Fridding wise, on "The saiff as it will be when the change pro-posed totaly come into effect will be a moderate staff and probably as into set the converge one of-fered to here under present conditions, of course or cannot expect that it will be satisfactory to except body. It will not meet the wish of the safe-

rerybody. It will not meet the wan of the ac-ocates of high protection."

Mr. Meighen: "It comes pretty close to it."

Mr. Fielding: "After all life is largely made p of compromises. In the realm of political afup of compromises. In the resum or postucat air highst orderly sportunized can be possible only where a spirit of compromise exists. Subject to the exceptional conditions such as I have men-tioned I think the country should be content to accept the tariff as it will now stands as one fair. asonable as can be prepared under all the stances, and business men should be able to their various enterprises without the to corry on their various enterprises without the fear of being soon disturbed by further changes. Stability of tariff cannot be expected while tar-Stability of tarm enmot on experient wants to first are fair high. But where the rites are for the most part, as in our tariff moderate, a reacoughle measure of tariff stability should be assured. (Hanard 1923 p. 2731).

Within the year Mr Friedling became unable to

confine his well. En moderating influence, which have been assumed in a constraint of the way and the circuits of the way, assuming facts of Government, and with the budget of 1254, the Government's Jis is therefore very circuit, speculing to Premier versus, thus permitting the reduction of the tasks pixeles of including variables of includin The whole question of the tariff has become in the ads of the Liberals a matter of so much uncertain-

hand of the Lorense a manger of the third of third of the third of the

on. The tariff which Mr. Fielding in the rotection. We need expect no extraor
-but we are entitled to expect a reli The the practice, if not the policy of the Liberals.

If on October 29th Mr. King and his Liberal Programmy following per retained in power, no one, estainly not Afr. Wing can forecase the tariff for ever one year. If on the other hand Mr. Meighen is re-

A GIFT TO UNCLE SAM

HOW THOMAS EDISON TESTED one offended th A COLLEGE MAN

man fresh from one of the great universities, where he had been graduated at the bead of his class. Soon the young bachelor of arts met much that upset his pet theories. But he would not readjust these theories.

One day Mr. Edison unscrewed from his socket as incandescent electric light bulb. "Find the cubic conincondences electric light below. Tried the cubic content of that it was due to be coding regularist.
To work not the problem by mathematical rule was the content of pages were figured and disfigured by his energetic posed during the content for the content for days of the content for the content for the content for the content of the exclusions. Fault he brought for Mr. Eddan the rest for days will distinguish the content for the content of the way will distinguish the content of the way will distinguish the content of the c

Au ngat, and zelawn ealmy. Lets find out. The graduat took us this pencil, ready for an-other siege at mathematics, but the inventor quietly picked up a small hammer and knocked the, tip off the blown end of the bulb. Then, he filled the bulb with water, weighed it and vin about a minute had arrived absolutely at the result. It showed that the complex mathematici calculations of the college man ere at least 10 per cent out of the way. Fortunately, the lesson went home and after ward the student became an excellent practical ele-

"CONFESSIONS OF A KING" William Lyon Mackensie King, Premier of Canad rote a book in 1919 entitled "Industry and Hum wrote a book in 1919 entitled "industry and itium anity," in which he made the following admissions: 1. Industrial conditions are the result of those hav-ing the direction of Governme.:

 Increased memployment and industrial unreased us to the influence of Government. 3. The failure to stimulate immigration is the fault of Government.

OUR POLICY WHICH LED TO OUR BATTLE CRY: "PROTECT-

ION TO HOME INDUSTRIES,"
RESOLUTION by Sir John Macdonald in the House of Comm

House of Commons, for the National Policy, and by which he swept the Country: and by which he swept the Country:
"That this House is of opinion that the welfare of Canada requires the adoption of a
National Policy, which by a judicious readjustment of the Tariff will benefit and foster the Agricultural, the Mining, the Manufact-urer and other interests of the Diminion; that such a policy will retain in Canada thousands of our fellow countrymen, now obliged to exor our ratiow countrymen, new obliged to ex-patriate themselves in search of employment denied them at home; will restore prosperity to our struggling industries, new so badly de-pressed; will prevent Canada fram being a sacrifice market; will encourage and develope an active interprovincial trade; and moving (as it ought to do) in the direction of the reciprocity of Tariffs with our neighbors, so far as the varied interests of Canada may demand, will greatly tend to procure for this Country, eventually Reciprocity of Trade".

most Canadian women resent remarks, such above — even from a King. Possibly Mr. King in ines because the Latin for King is "Rex" that he like the Kings of the Middle Ages who when so the half only to say:

GIVE US A CHANCE!

Can it be that this condition has root of the trouble. And yet Mr. King is appealing

BELLEVILLE LIKES TUMMON

sees, more crowded and more canonicated halo even data memorishin meeting of a week eqo, was a clear adication of the growing popularity of the Conserva-tys Standard Beaver, Mr. W. E. Tummon, and of the confidence the people of this city and district a him personally and the cause he represents. The in him personally and the cause he represents. The meeting heard a comprehensive review of the political situation by Mr. H. A. Stewart, Brockville and M.P. for Leede, a ringing speech by Major Ponton, a con-line address by Mayor Mikely but they heavel will teem interest the brief speech of Mr. Tunnene him-del and broke fills tremendous electron and splause them he was prevailed upon to select, as he dol, twice minds for the desired. It was a local semiliar address. mich to their delight. It was a loyal smiling and ready to work and vote for Tummon and eage others work and vote for him so that his elec-

IMAGINARY BOON TO FARMERS

tion in the duty on agricultural implements. It places the implements immufactures by removing the sales are and refunding to them hugo sums of such taxes already paid by them on materials still unmanufactured and on implements in the hands of their agents. The total of revenue had-of-course to be made up from loss of revenue had-of-bourse to be made up from other sources. The government took the durther step of placing certain matepials used in the manifacture of implements on the free list. It was thus in a position to argue that it had ispitemed the burdens of the transer. Bel-mad I; is a vital "but,"—is that true?"

How does this policy of creating a "most favored" adoutry work out? Let us visualise an interview be-ween the manager of a big implement plant and the er of a large Canadian steel plant, as to s

The implement manufacturer estimates his re-uirements for aix months in pig iron and all classes it steel, at my 20,000 tons. He shows price quota-ons from Buffalo. Pittaburgh or elsewhere, which, ming to savings-on mass production in the United os are lower than those at which the Canadia man can sell with a reasonable margin of profit the latter, to provide tonnage for a plant tha be must keep going anyway, and to spare his em ployees idle time, agrees to fill the order at the Am

rriem quotation.

Six ments later the manager of the steel company reports to his board of directors that of any a total output of 60,000 tons, one third has been sold at cost to the implement concern. The problem for the directors is whether it is advisable to load the

the direction is whether it is advisable to load be the two thirds of their output with a higher price to compensate for the pricks so austificad. Assuming that the hand relst is necessary to substige such a course, the cost falls bank on the consumer. The fenter has appropria avail, assuming on the price of his implementa, but has jo say more than he other was would be many emonotation this which loss and safet sharp, one necessarily as a direct instead, bed in the filled in adultative, required in the pre-bed in the filled in machinery, required in the pre-bed in the filled in adultative, and the same proper in the connetion of nearly every kind of article.

Practically the situation resolves itself into a

of putting the money into one pocket and taking out of another. As the old proverb has it, "robbi Peter to pay Paul."

EMIGRANTS' MARCHING SONG

Chorus)
We're all going over to Uncle Sam
And on the way we'll sing.
What's the matter with Canada.
Only MacKenzie King!

Uncle Sammy's so pleased with you, Mr. MacKenzie King!

Mr. Mackenzie King! Reform o' the tariff is more in our line, Tho' your Uncle Sam don't think it so fine For his exports surely would decline,

Reform yourself, O King!

We surely admire audacity.

Mr. MacKenzie King

You can turn the Masseys, their followers Into little tin gods like you, that's true,

But we're not such fools that we can't The ways of MacKenzie King!

We're all going over to Uncle Sam

And on the way we'll sing, What's the matter with Canada? Only MacKenzie King!

WHAT IT STOOD FOR "What does that sign S.R.O. in the theatre

"In the case of this particular ans 'Scanty Raiment Only.'

OUR POLICY WHICH LED TO VICTORY
QUE BATTLE CRY:—"PROTECTION TO HOME INDUSTRIES."
RESOLUTION by Sir John Macdonald in the House of Commons, for the National Policy, and by which he swept the Country:

and by which he swept the Country!

"That this Roune is of opinion that the welfare of Canada requires the adoption of a
National Policy, which by a judicious readinterest of the Tariff will benefit and foster
the Agricultural, the Mining, the Manufacturer and other interests of the Diminion; that such a policy will retain in Canada thousands patriate themselves in search of employment denied them at home; will restore prospectly to our struggling industries, now so baptly deour struggling industries, now so belief or pressed; will prevent Canada from being a bacrifice market; will encourage and develope an active interprevincial trade; and moving (as it ought to do) in the direction of the re-ciprocity of Tarifis with our neighbors, so far as the varied interests of Canada may dams will greatly tend to procure for this Coun-eventually Reciprocity of Trade".

Labor, Capital And Politics

By H. G. FESTER. Editor, Canadian Labor World

the produce which it and labor jointly produce will cause hardship to both. Capital, if deprived of its power to earn dividends will shrink in volume. A shrinkage in the volume of productive capital will cause labor to be deprived of its opportunities for cause issues to be deprived of its opportunities for employment. This causes poverty and misery to labor, which is not only deprived of the opportunity to better its conditions, but is desied the very prim-

Mr. MacKenzie Kingl 107 centulas tercumy is mateum in:

For all this talk of your grand new 100 centul of the control of the solution of the Control of the out for Senate Kerorm, san at the right to the exchairs use of the purchase.

Mr. MacKentze Kingl in spower is soon shome market. So adopting a gradually withdrawing the preservice and decline, so the by the filmoral Sr. John Macdonald, the King Gorterely would decline, ernment has seriously crippled the effectiveness of productive capital in this country.

rement has seriously employ the effectiveness of productive expisial in this country.

As a consequence of this policy of tariff reduction, hundreds of mills, factories and workshops have been forced to either suspend operations or to mat-crially curtail their activities. No less than 600,000 of our best people have been forced to migrate to a foreign country, because they were denied employ-ment in their homeland. Our financial institution

ment is their househad. One financial minimizes which, however, was not spen to the plant of the

turned ot office. His assurances to the Maritime Provinces and also the middle West, that there is n further need for a Progressive party in Canada, can only mean one thing, and that is, he is in sympathy with the free tinde policy of that party. Compare this uncertain attitude of the Premier

with the clear cut position of the Leader of the Or position. Hon. Arthur Meighen declares without conrocation his belief in a protective tariff for worker business man and farmer. If returned to office Mr Meighen may be depended upon to restore confid-to our badly shaken industrial institutions. A stak-ed tariff based upon the solid rock of sound pro tive principle will bring prosperity to all cla more particularly the working classes who h fered scutely during the last four years of the Ki

St. Thomas Times-Journal:
In offering prizes at Thorold fair for the be unbobbed head, John H. Thompson, editor of the

unococed nead, John H. Ibonipsea, educe of U
Thorold Post, says:

I am opposed to bobbed hair on principle. If
I had a thousand girls, not one would have bobbed
hair. The Creator made female hair long, and I
am in favor of leaving it that way.

Personally, we like to see a natural head of hair, but the fashion has changed, and if we can't get what we'd like we have to like what we get. But because, we'd like we have is like what we get. But because, as lie. Thompose anys, the Creater made female hair long, that is no reason for being opposed to short hair on principle. Surely, the Creater made man's hair to grow long too, and He also juit "hair on their faces. Man didn't like h after enduring it for centuries and excepted himself with a chipped filis, and when the age of steel arrived, he invented the dippers and the narry. The Mr. Thompose reconsideratives of the narry The Mr. Thompose reconsideratives. the razor. Has Bro. Thompson ever gone contrary the Creator's plan and had a hair cut and a shave?

Many a good argument is knocked down and re

g Our Boys and Girls **Back Home** Give them work in Canada

THE CREAM of our youth, fresh from our schools and colleges, are leaving the homes that have raised them, are forsaking the country that has educated them, and are throwing in their lot with Canada's greatest rival.

Canada educates these young men and young women at the public expensebrings along a new lot of them every year -for what? For Uncle Sam to take his pick! And the irony of it is that when he gets them, he frequently employs them at tasks that result in loss of business, loss of employment, to people in the country of their birth.

Our boys and girls should have the opportunity of getting work and of making careers for themselves in Canada. The breaking up of families and the loss of our best blood to the United States must stop.

"Premier King did not tell Quebecers that he intends to complete the Hudson Bay Ra way. But he told Westerners so.

"Premier Kine did not tell Osshere that he form as rapidly as possible. That is what he has

Premier King did not tell Quebecers that, if reelected, he will continue in a policy of tariff re-ductions. Yet be allowed it to be said in his presence and from the same platform by Premier Norria of Manitoba, one of his political friends. "Premier King did not tell Quebecers that his

cabinet reorganization was only a stop-gap affair to tide him over the electors. Yet he has appeal-

OUR POLICY WHICH LED TO
VICTORY
OUR BATTLE CRY:— "PROTECTION TO HOME INDUSTRIES."

RESOLUTION by Sir John Macdonald in the

RESOLUTION by Sir John Macdonald in the House of Commons, for the National Policy, and by which he swept the Country! "That this Rouse is of registed in that the wel-fare of Canada requires the adeighten, of a National Policy, which by a followine read-justiness of the Taviti will benefit and foliars the Agricultura; the Millogs, the Marmfact-ure's and olphir interests of the Diminion; that such a policy will retain in Canada thousands of our fellow countrymen, now obliged to ex-patriate themselves in search of employment

patriate themselves in search of employment denied them at home; will restore prosperity to our straigeling industries, now so badly de-pressed; will prevent Canada from being a secrifice market; will encourage and develope an active interprovincial trade; and moving (as it ought to do) in the direction of the re-(as it ought to do) in the direction of the vi-ciprocity of Tariffs with our seighbors, so far as the varied interests of Canada may demand, will greatly tend to procure for this Country, eventually Reciprocity of Trade.

TORONTO'S "INGRATITUDE"

suspect a justy colored man somewhere in the wood pile. The boast is that the Government made a propile. The boast is that the forevenment made a pre-fit by selling a site, purchase for a \$10,000.00 in 1925, for \$12,000.00 in 1925, or binstaken 42 per cent in-crease. At 5 per cent the interest chirges on this in-ventencial would be \$120,000. Thus this site to an Am-trican building syndicate regulated a-bins of \$70,000. plus insurious and turns. At the time the site was purchased for the C.N.R. its, owners were enrously-considerate, and one of \$70,000. The production and one

Sank to the American building syndicate is accom-panied by a guarantee of \$225,000 pgr annum for the rental of four stories of, the schilleng to, be erected, which represents the interest on \$4,000,000. This ren-tal charge is figured at \$16 per square foot for the ground floor, and \$3 per square foot for three floo above. Half a block away the Metropolitan Buildir the most modern edifies of its kind in Toronto, is renting office space of similar focation to ordinary applicants at \$1.90 per foot, and bifered the govern

no more akyserspers for the present. They are at present a losing investment and the new structure will egravate this condition. Moreover they are a detri ment to surrounding property as every-real estate es pert knows. It is not surprising then that Toroni is far from grateful to Hon. Mg. Graham.

AUSTRALIA'S EXAMPLE

Sir James Elder, Australian Trade Commissions to the United States, recently made a speech in which he mid, "Australia is now riding on the crest of phenomenal wave of prosperity, and the uneels of industry are spinning there as never before." In Bri-tiah publications pictures of Sir Joseph Cook, High Commissioner for Austrilia, bidding, god-speed to bodies of the finest type of emigrants leaving for his Commonwealth, are of frequent occurre-eidents cannot fail to make the thought

deral debt by ten per cost, and at the same rate o progress will have wheel it out in loss than 20 years And it must be remembered in this connection that tions are egary functions or course for a population of 5,700,000 people; in comparison with Canada's debt in 1922 of two billions four hundred and twenty-two millions for a population of \$900,000. Canada's not debt reduction for the same period of three years mounts to but five million debter, and it would be fantastic to say that a he inting on a wave of

phenomenal prosperity.

The reason for this difference is not far to seek. So James Elder says it is directly dib-to the fact that in 1920 Australia adopted a tariff providing a larger at her very doors. Nevertheless she adopted prote ton as a sound economy measure to cope with h coloural per capital debt, and the wisdom of her a men has been abundantly rewarded.

"My dear," he emotionally murmured as abe po

BELLEVILLE BOY WINS Day Of Rain Fails To Keep Down Crowds John Walfridge has been awarded the Leitch Memerie Scholarship No. 1 at Quean's University in Honey Matriculation for highest percentage in any have subjects. -Greeted by Their Majesties and Brothers-Acclaimed by Millions

London, Oct. 16 .- London gave the Prince of Wales the Dondon, Uct. 16.—London gave the Prince of Wales, the most affectionate welcome of all his home comings this morning when he returned from his voyage to South Affrica, and South America. He was greeted at Victoria Station by the King and Queen, other members of the Royal family and thousands of spectators. AT VICTORIA STATION

AT VICTORIA STATION
Victoria Station was more elaborately decorted with
flags and gay bunting than ever before in its history and the
pictureaque Welsh guards were drawn up at attention to
greet the Prince who is their Colonel. After formal greetings
were finished the King, the Prince of Wales, the Duke of York and Prince Henry drove out in an open carriage to be met with loud cheers by one of the greatest crowds: that were greeted Royalty in London. In spite of the cold and drizzling rain, scores of thousands packed the streets through which the Royal carriage proceeded toward Buckingham Palace. The Queen and other members of the Royal Family drove unosten-tationally in closed cars direct to the palace. The Prince ap-peared bronzed and happy but itred, although not too weary to greet the crowds with his famous smile.

He stayed at the palace an hour or two, and then proceed ed to his own home, York House, a quarter a mile away where he will dine quietly with a few friends. Great emphasis is being laid upon the Prince's great need

of rest after his strenuous exertions of the last six months, and heh as refused literally dozens of requests for his presence at this and that function which have been wirelessed to him on the Ropulse. One of his first movements it is known, will be to see the aged Queen Alexandra in her retirement at Sandringham, and he is expected to do a lot of hunting during the

LANDED AT PORTSMOUTH

RATES OF EXCHANGE

Portsmouth, Eng., Oct. 16.—The Prince of Wales came home to-day after a six months' journey which took him through a large part of British South Africa and to the capitals of South America. The battle cruiser Repulse which carried him on the 25,000 mile voyage came in from sea this morning to find a damp, drizzling day. The great war vessel was met by destroyers and seaplanes and escorted to an anchorage off Spithead. Shortly before noon she steamed, into the dock here and the Royal traveller set foot on his home soil amid the cheers of a welcoming crowd. The Prince was greeted by the Duke of York and Prince Henry, who came here on a specia train to meet their brother.

RRAILWAYSPAY

The sure way—the only way—that our perplexing railway problems can ever be solved.

Temporarily our Canadian National Railway system is in a hole. To deny the fact would be rank untruthfulness, to belittle its importance would be sheer folly.

But this huge public ownership enterprise CAN and MUST be pulled out of the hole, and it's up to the men and women voters of Canada to do it!

A Loaf Big Enough For Two

. If our foresight had been as good as our hindsight, we would never have built the crossive rallway plant we have today. There is a relively plant we have today. There is no use crying over split milk. The problem now is to chart for ourselves the owner that will most quickly and most marrier basic marrier basic marrier basic marrier basic. ways on a paying basis.

Thus far the main effort of its management has been to get more business—freight and passenger—for the C.N.R. by the state of the control of Thus far the main effort of its managetenance for both.

manner for both.

The only way our railway problem vill, evir be solved is for the voters of Carada to see to it that, our, railways are given a bagger loaf to dvide—a-loaf of freight and passenger traffic that will be large enough for both systems to thrive on.

We Have the Acorn, We Must Grow the Oak

How to increase freight traffic—that is the kernel of our problem! The average Canadian freight train earns \$5.00 per mile travelled; the average passenger train earns only \$2.00. So it's upon the freight end of the business that we must concentrate!

Of course, some kinds of freight are more profitable than others. There is very little margin of profit in carrying grain, irst because the rates applicable to it are lower

per ton per mile than the rates on any other commodity, and second because the grain movement is a peakload traffic, calling for an enormous investment in cars that are idle the greater part of the year.

But there is a substantial margin of profit in hauling general merchandise.

What can we do to ensure our railways getting more of it?

Higher Tariff the Cure

Increase our population—start a big immigration movement—and the rest will follow as a matter of course! Easier said than done? Not at all! All we have to do to start the tide of immigration flowing through our ports is to hold out to the prospective immigrant the assurance of a steady job at good wages, or the chance to engage profitably in farming or some other form of production or service.

A higher tariff, that will be a real Pro-tective Tariff, will give him a guarantee covering every point. And nothing else under Providence will!

A Lower Tariff is Poison

A Tariff policy that allows the Canadian A Tariff policy that allows the Canadam market to be supplied more and more by outside workers, automatically operates to reduce the freight traffic available for our railways. When for instance, due prinsufficient tariff protection, the area of the control of plant in Belgium, Canadian railways lost the hauling of 2,000 carloads of raw material per year!

If Canadian cotton and woollen mills only had the making of the textiles that we import every year, our railways would have the hauling of another 50,000 carloads per year of raw material freight.

per year of raw material freight.

Picture to yourself the scores of other
things that under a low tariff policy we
import, when under a higher tariff policy
we would be making them in our own
workshops, and you can hardly fall to
realize that the sane—the sure—solution
of our railway problem is all ready-maked
for us, and awaits only our offpolis to put it into operation. The meesary traffic is there. All we have to do its
reach out and get it!

Increasing Imports Mean Bigger Railway Deficits

Every time that low duties take away a portion of the domestic market from a Canadian industry and give it to a foreign industry, our railways suffer in four ways.

1. They lose the hauling of the raw material that such industry would

have used. On the finished product, instead of the full local rate, they get only their proportion of the through import rate—a much lower net.

When it results in the Western Cana when it results in the Western Cana-dian market being supplied from a U.S. factory, they lose the long East and West haul, and get only, the short haul from the international boundary.

They lose the hauling of all the mer chandise that would have been con-sumed by the workers who, due to the resultant unemployment, emigrate to the United States.

Lower duties throw people out of work. They just as surely throw railways out of work. We can never save our railways by giving them less work. We must use our brains and our courage to secure them more work better paid work! Higher tariffs will do it.

FRANKFORD SEES Fluorspar Mines in Hastings Closed Because Government IS CHIEF NEED Allows It To Come In Free FOR FUTURE

The story of fluoropar was told to Frankford last even ing by Mr. Tummon, Conservative candidate in the ridgest Fluoropar was discovered during the war in the Storth of Huntingdon Township and user Medica. The stort of Huntingdon Township and user Medica. The Storties to said on to "Herries" to said on the "Herries" was fluoropar; it is needed in the treatment of steel.

There was of course great demand for it and at cost time six mines were going full blast. The Mining Corpication of Township and the Algorian steel mills had men here watching its development. Shipments were cream made to the States.

Then when the end-of flas war came, the business of mining fluoripar addenly stopped. Why?

The reason is that highly developed fluoripar mines in Indiana now spy the business.

There had been a duty on fluoripar going iffon Canada into the States of \$1.50 a ton. When the Stateslewsch that Mades flowropare was being shipped in to the U.S. at this rate and was interfering with the Judiana product her yained the darty is \$2.50 at and said in precisionly prohibit that the states of \$1.50 at the states o

But the trouble is that Canadian steel mills are not using Canadian Suoryar. Why.

They set it from the highly developed Indiana mines after a production are pushed, protected by a high tariff against Canada, and IT COMES INTO CAN-TAGE FOR DO BUTY.

Canada under the "Bender" vals, (in favor of the United States) of the Mackensia King Government has dried up the business in Hastings County, and Jeles the States do it all.

EXCEPTIONAL RIDING COMFORT

The riding comfort of a motor car is not de-pendent upon its length, weight or cost, any more than the comfort of a home depends upon its size.

If the seats are deep enough and the proper distance from the floor; if the seat backs are correctly pitched for relaxation; if the up-holstery is sufficiently stuffed and there is piently of leg room; above all, if the springs are rightly designed and of proper length, you will have exceptional riding comfort. Otherwise, you will not.

Dodge Brothers, with characteristic thoroughness, studied and experimented with these details for years. Their findings were ultimately incorporated in the design of Dodge Brothers Motor Car-without question now a vehicle that ranks with the first in this vitally important feature.

"Why I Should Vote Conservative"

Give Our People Work in Canada Operate Our Factories Full Time

CANADA cannot hope to attract immigrants so long as her own people are leaving her in thousands, and going to the United States !

She cannot possibly compete for immigration with the United States so long as her manufacturers are denied the protection that would enable them to pay good wages,, and still hold their own against importations from low-wage countriest

By steadily lowering her tariffs, Canada has been forcing her manufacturers into a position where they are between the devil and the deep blue sea. They must pay substantially United States wages or lose their skilled help. Yet when they do, without a tariff that protects them, they cannot control their home market against European goods that have been produced by sweat shop and child labor, and from countries where minimum wage laws are unknown.

If Canada wants immigrants, it must have healthy industries. And if it is to have healthy industries, it must protect them !

The best immigration policy is a tariff which ensures every worker a full time job at good wages.

We will get the immigrants we must have ·· the capital we must have ···· to make Canada prosperous!

VOTE CONSERVATIVE

FOR HIGHER TARIFF AND FOR LOWER TAXATION

Canada for Canadians VOTE FOR

OUR POLICY WHICH LED TO OUR BATTLE CRY:— "PROTECT-ION TO HOME INDUSTRIES."

RESOLUTION by Sir John Mardonald in the House of Commons, for the National Policy,

and by which he swept the Country:
"That this House is of opinion that the welfare of Canada requires the adoption of a National Policy, which by a judicious readjustment of the Tariff will benefit and foster the Agricultural, the Mining, the Manufact-urer and other interests of the Diminion; that such a policy will retain in Canada thousands of our fellow countrymen, now ablined to expatriate themselves, in search of employment danied them at home; will festore prosperity to our struggling industries, now so badly de-pressed; will prevent Canada from being a sacrifice market; will excourage and develope an active interprovincial trade; and moving ciprocity of Tariffs with our neighbors, so far as the varied interests of Canada may demand, will greatly tend to procure for this Country, eventually Reciprocity of Trade".

CONTEMPORARY OPINION

THE SCRATCH CABINET THE SCRATCH CABINET

(From the Mail and Empire)

In a former article we aboved how the King Government's thances in the approaching election wer rated by several of its soft members. See Lone Geein, the ablest man is the King Cabinet, qu's it is conducts of a brave new cheered him.

A PARSON'S DILEMMA

New York Evening World:
A country parson, writing in the London Daily Mail, complains that the radio is emptying his church and that people in the rural districts are not astisfied with loss than a sermon by a bishop nowadays. Good with loss than a sermon by a hisboy nowadays. Good morning vices. I attended a fine servine, in. Yest unlatter voterday. Magnificent music and a first rate sermon by a hisboy, and I hearderry word distinct by," were the words with which one of the purson't prabhoneus greeted him on the road one Monday morning. How did you get hark so soon? Oh, I nec. On the wireless!" was the victor's repy. And he writes: "Now I preside distinctly. Also we have music in our residents." in our parish church, even though you cannot cal it magnificent. I am not a bishop, though I have a tain respect for bishops. But it's only human ask them what they mean by preaching in my parish to a congregation who drink their beer and amoke their pipes in comfort, while I am trying to get th to church." Still, there is hope for the parson. He will have his revenge. The public is amenable to education. Pretty soon the hishens will be as Archbibbp. Then the bishops will be so ordinary

REALITIES AND REMEDIES

For many months past, in the Liberal press and on Liberal platforms, accusations have been a ado that Mr. Meighen was indulging in "blue ruin" talk, and t by so doing he had become an enemy to the create of Canada, It might as well be argued that en a doctor finde a man in a run-down conditio and urges him to take a tonic and be careful of his health! he seeks to do that man an injuty.

saidth he, sechs to do that man an mjuly.

There is a wind difference between recognizing a line paper spone toe concer any as There is a wind difference between recognizing as the recognized of the particular act. That is one trouble unsold and giving way to the recognized of despair, to for in from being a possimist, Mr. Meighen by the tot of them ought to be locked up. We try nature of the policies shows himself an optimist.

of Mr. Meighen and the "blue ruin" speeches of betal leaders like Sir Richard Cartwright and others an earlier generation. When times looked by Mr. Meighen on the other hand proposes a re candid return to the policy of protection, the most flying policy in the history of Canada. Protection effect sensions for every one at our reasons grow to make the proposed to the United State decline of immeration, railway deficits, and gener taration. It is the remedy that will retrieve Canad from moral and economic depression, a policy of or timien that recognises realities.

There has been much talk by Liberal speakers a that their chief ob . Hon, Arthur Meighen and his associates bey will produce disunion.

When shid these exaggrated rumons of common of which the Liberals are attempting to make capital begin? About three years ago; coincidently with the initiation of tariff-paring policies by the King government. So long as protection was the recognition of the control of the co

SINCLAIR'S

COATS ALY SINGLES

Moderate Prices There is great variety of style in the new Coats. Flares and

godeta are very prominent but the straight line coat also fills a big place. Furs are used on prac tically every coat, on collars, cuffs and in many cases on the bottom. There are many to choose from, moderately priced at \$18.50 to \$35.00.

Children's Coats

These Coats for children of 2 to 14 include many pretty fur-trimmed models, as well as the more staple coats, designed for hard wear. They are made from fine all wool fabrics and lined and interlined where necessary for warmth. Prices \$4.50 to \$16.50.

WOOL HOSIERY

The wanted shades in an unusually good quality are features of our Special Silk and Wool Hose. They will wear and keep their good appearance. Special Value \$1.00.

TO THE RAILWAY WORKERS OF CANADA

Dear Sire

I am credibly informed that a whispering campaign is being carried on in the endeavor to misrepresent my views, and the attitude of the Conservative Party, towards the Canadian National Railway System and the Canadian Pacific Railway Company.

Marchet IV ir order that there may be no doubt in your mind as to where I stand on railway amalgamation, I give you my personal assurance that I have never given the slightest support to it, and I will oppose, either in office or in opposition, Parliament dealing with the question of smalgamation unless as an issue to be placed somerely before the people at a future election for and

Increased population and traffic, and not amalgamation, are needed to solve Canada's Railway problem. My railway policy is bound up with a reasonable and stable protective tariff, bringing with it prosperity and increased railway earnings, thus assuring regular full time employment for Canadian railroad workers, as against short time now prevailing in many branches of the railway service.

With my best wishes for a prosperous future.

I am.

Vours very truly,

Canada for Canadians VOTE FOR

HOW WARS COME

as a proposition the truth of wants was to-ted by the history of the decade or two pro-tions are presented war. But probably the truth has one presented more clearly or expounded more clearly than by Viscount Grey of Falloden in any published memoirs. The former British ry shows why the armament race mus evitably end in war, as it did eleven years ago.

"We are all disposed," writes Lord Grey, "to attri-

ree and views that we have enter or siles. While obe nation arms, other nations can-tempt it to appreciate by remaining defencedors. saments must have "equipment; arriles can not of use without strategic railways. Each measure me by one nation is noted and leads to counter sources by others. The increase of armaments process by where. The increase of armanants, defent to seek work in the Tulted States It is not serve, your of instantial deparation, pureful limited to assert that the problem of process of density, does not describe, does not describe, and a same of accounty, does not the Canadian National Railways, under the King. "A Demonstrate tenff street of produce for the street of their authors and consistent sends of their properties. It is the consistent of the street of their authors and consistent sends of their properties of the contract of their authors and consistent sends of their actions of the street, and their actions and consistent sends of their actions of the street of their actions of their actions of the street of their actions of the street of their actions of the street of the street of their actions of the street of their actions of the street of their actions of the street of the street of their their actions of the street of th

But the sad truth is that one nation at once preda-tory and strong can spoil a whole international prosarmament. For example, could the na-tern Europe afford to disarm so long as Red Russian maintains its great army on a war foot by the govern-ing, fully equipped and ready at a day's warning to prices to the arm over the continent on its mission of universal

Mr. King will be welcomed by Americans as a further step in the same direction.

This is not lief persidings. There is, for its place, and in Italifica. He is not a residence of section, for works) personal in, the United Section of the Section o any Canadians who have left this country; and this avidence the "Argonaut" interprets the on this evidence the "Argonaut" interprets the situation created by the King Government as hopeful to the cause of annexation. In an edi-torial entitled "The Exodus from Canada" it dil-ates on the loss of what it calls "the cream of ada's population" during the past three year says that this movement will have an imporant bearing on the sentiment for annexing Ca ada to the United States, which, it says, has cropped up in Canada during the last sever years." The "Argonaut" attempts to diagnose the

The question of amexation has become issue in Canadian politics, and will come increas-ingly to the fore should Canadian depression and American prosperity continue. Obviously it is As most Canadians are aware, this is a rath propeous view of the situation. Within the pa ars (not seven, as the "Argonaut" sta cal policies which will restore induty and check the exodus. Yet it is canadian sentiment. Mr. K ent. Mr. King's

In my humble opinion, by folk ling the suggestions already in those, farmers could keep their as and daughters on their farms as and daughters on their farms as fer employment that will give good financial returns as farming ver fer increased productive and mar-ing conditions. the gitis' and ladies' team under the captais, 'Miss Attchinou, led the field for new business, Miss Attchinou personally isading the field with thir-

ing conditions.

Some who are here to-day at this moment may be thinking, it is easy to talk and ask for thereased production, but it is impossible to produce more without solditional farm help and im some cases, the use of

helpi and in home cases, the use of more expital.

Both these difficulties are easily overcome. The Ontario Govern-ment will gladly, through their Lon-don-office, secure for this district all, the farm help needed, and the Eanks in Belleville have an abund-ance of moncy that they would so only toe williarrating moderation. may too willing to lend to sample farmers in increasing production.

So far as The Standard Bank of Canada is concerned, I repeat what I have so often said during the past

would be whing to - In closing may I orpress the pleasure. It gives me to has so many of
the leading men of Belleville mod
turroughting countles here to-day, it
is in manifestation of the splendid spirit of co-operation now existing

\$29.50

French Delaines

These fine French Delaines are very pretty in new designs and make up nicely where one wants a little more warmth than silk gives. They are all wool, of course, and very fine in texture. Priced \$1.25 and \$1.50.

UNCRUSHABLE CREPES

Among the season's most favored printed fabrics are these Uncrushable Crepes. Shown in many beautiful color combinations. Width 38 niches, Priced \$1.50 yard.

IIMBRELLAS \$2.95

Every day seems an Umbrella Day this Fall. Here are some very good looking and very serviceable Umbrellas with smart handles at \$2.95.

LINENETTE CLOTHS

Made in pebbled oil-cloth in linen finish that is washable and durable. Blue patterned cloths: 1½ and 1½ yds. square Priced \$1.25 and \$1.50. Plain linen finish 1½ yds. in width at \$1.00 yd.

FACTS DRIVEN HOME

Very Successful Meeting at Conservative Rooms Here

Standing room only, and even that at a praemium, was available at the meeting held last evening in the Wo men's Conservative room, when Mrs Avidale, ex-Alderman of Nisgara Falls, and one of the most aloquent women speakers in the Dominion, gave a brilliant outline of conditions existing in Canada under the King administration.

THE EXODIS

Mrs. Twidale referred to Brant-ford, which has been so effected by tariff regulations that nearly all of the industries in the town have been

and cheat you out of the wages to buy them with

Better have good wages and no imported Bargains···· than imported Bargains and no wages

A Cockney immigrant was recently scolding a United States shopkeeper for asking fifty cents for a certain article. "Why, where I come from," he protested, "I could buy that for a shillin'." "Then why didn't you stay in the place you came from?" retorted the shopkeeper. "Because I didn't have the shillin' !" blandly admitted the Cockney.

He couldn't get work in what was then free trade England, so he went to high tariff United States to get a job.

Keep on reducing Canada's tariff, throw open our markets more and more to the dumping of mass production from the United States and the off-scourings of European sweat shops where child labor is exploited, and you will bring wonderful bargains in manufactured goods

But with everyone out of a job, who could buy

Buy and eat Ontario Apples

bundant Crop - Better Apples

Delicious Fall Apples

McIntosh Red—there is no better eating apple. It attains its greatest perfection in the orchards of Ontario.

Snow Apples sisters of the McIntosh Red deliciously crisp and full of juice of rare flavour Fine for cating and baking.

Ribston, Blenheim, Tolman Sweet, Gravenstein, King—their particular flavour comes out best when cooked or baked. Fine for eating, too.

This year the apple crop of Ontario is bountiful. The quality is higher than it has been for years.

Better cultivation of the orchards and more extensive spraying, encouraged and assisted by the Government of the Province, have been partly responsible.

To assist the apple growers of the Province to

secure the deserved rewards of their efforts to produce more and better fruit, the Government of Ontario is interesting itself in creating wider markets for the crop. The best market is the home market, Herein lies the maximum of satisfaction to both

own Province and help to build up an important branch of her fruit production. Demand Ontario Apples. Your dealer has or can get them. Because of their superior flavour and keeping

qualities, all the best Ontario Apples usually are bought for export at highest prices. On this ac-

ples you will contribute to the prosperity of your

count, perhaps you] have become accustomed to apples brought in from other

This year the orchards of your own Province will sup-ply you with apples of the finest flavour. They are the best and most economical fruit you can use.

Alexander, Wolf River and Greening are splen-did varieties for cooking and baking. Buy them by the barrel or box

DEINCIPLE REFORE PARTY

The handred and fity years age, with unremajord fieldity to -traditional levelity, the first
first process of the state of the state

skeing out a meagre existence as sources of men and raw materials for others more advanced in ation; but this was not the coursecous and

country's products, giving some of them prefer-sitial rates, and keeping Canadian trade within Canadian control. Conditions attached to the use of national resources such as the obligati lands to the stage of wood pulp before exporting it; a stage which might well be advanced to that of paper-is another method of pretection Prohibition of the import of margarine and the export of electric power are other protective measures. Export duties on our own unfinished icts would be another form of pretection Our whole national fabric is buttressed by pr our national life.

Mational protection is the fixed policy of Mr. Meighen and his party. They would protect the farmer, fruit-grower, potato-grower, coal-mine and shipper of the Maritime Provinces; the farm er, fruit-grower, dairyman, market gardener workmen and manufacturer of Quebec and Ontaries: the wheat-grower, cattleman, dairyman and coal-miner of the Prairie Provinces; the Argington and absper of British Columbia. By davious as various as the country interests, carry would protect the, national existence on avery side—not by weak concessions to strident

sely, that its parts may be injurylependent and moreally enteriming, that it may between popula-tion and grow in wealth, that'th may not become an appearage of any other country, but that its may realize the vision of its piecests. Who, with toil of their te-day.

WHEN TIMES ARE GOOD

committies not just the state of the state o

age that loosed people have an interpret in die. It is not been in the properties of the properties of

significant properties of the Canada of today and the freedestions of the Canada of today and the freedestions of the Canada of today and the freedestions of the Canada of today and the Canada of th paged the structure and balance of its mational fifth. It must containty swetch itself against life. It must containty swetch itself against life. It must containty swetch itself against life. It must contain the property and t

OUR POLICY WHICH LED TO VICTORY OUR BATTLE CRY:— "PROTECT-

TON TO HOME INDUSTRIES."

RESOLUTION by Sir John Macdonald in the House of Commons, for the National Policy, and by which he sweet the Country:

"That this House is of opinion that the wel-

"That this House is of opinion that the wei-fare of Canada requires the adoption of a National Policy, which by a judicious read-justment of the Tariff will benefit and foster the Agricultural, the Minling, the Manufact-urer and other interests of the Diminion; that urer and other interests of the Diminion; that such a policy will retain in Canada thousands of our fellow countrymen; now obliged to ex-patriate themselves in search of employment denied them at home; will restore presperity to our struggling industries, now so badly de-pressed; will prevent Causda from being a sacrifice market; will encourage and develope an active interprovincial trade; and moving (as it ought to do) in the direction of the reciprocity of Tariffs with our neighbors, so far as the varied@sterests of Canada may demand, will greatly tend to procure for this Country, will greatly tend to procure for this eventually Reciprocity of Trade".

SORROWS OF WERTHER
W. M. Thackery
Werther had a love for Charlotte
Such as words could never utter;
Would you know how first be met l
She was cutting bread and batte

Charlotte was a married lady, And a moral man was Werther, And, for all the wealth of Indies, Would do nothing for to hurt her.

So he sighed and pined and ogled, And his passion builed and bubbled Till he blew his silly brains out, And no more was by it troubled.

BACK OF A GOOD NAM

Rarely in manufacturing history has a name entrenched itself so firmly in the confidence of the entire world as the name Dodge Brothers.

Everywhere and to everyone this name means but one thing: a product built honestly of the best available materials and sold at a just price.

Behind this product, this price and this enviable reputation lie certain impressive and fundamental facts.

So important is a knowledge of these facts to the motor car buyer that Dodge Brothers (Canada) Limited, have determined to publish them, from time to time, until every newspaper reader in Canada may be presumed to have read them:

Dodge Brothers, during the past eleven years, have built and sold more than one million four hundred thousand motor cars—and more than 90% of se cars are still in service. This record requires no comment. It stands impressively alone in motor car history.

It has never been Dodge Bro-thers policy to build yearly models. When an improvement, that is really an improvement, is discovered, it is made at once. Their slogan, "Constantly Improved But No Yearly Models" is familiar the

Dodge Brothers build one chassis and only one. This policy materially lowers manufacturing cost. It also enables Dodge Brothers engineers to concen-trate their entire time and thought on the betterment of this one type.

Dodge Brothers have never had an "off year" or an "off car." This is because they have never used the public as a test-ing ground for "new models" or lowered the quality of their product in the slightest degree. Every change has been an improvement on the original

Dodge Brothers pioneered in building the first all-steel open car and the first all-steel closed

car. These epochal developments have saved Dodge Brothers owners many millions of dollars by materially prolong-ing motor car life and by effecting marked economies in manufacture. This construction has also reduced incalculably the danger from accident and fire

Dodge Brothers sell directly through their dealers to the purchaser. There are no sectional distributing agencies to increase the cost of distribution and the cost of the car.

Dodge Brothers have never given so-called "free service." The car is sold at a fair and honest price. Nothing is added to this original purchase price to pay for service that the owner may never need

Dodge Brothers Dealers were pioneers in adopting the flat rate service system. By this system, the owner knows in advance what any service job will cost. There are no unpleasant surprises in his bills.

The sturdiness and long life of Dodge Brothers Motor Car is reflected in its resale value. Comparatively few Dodge Brothers Motor Cars are advertised in the resale columns of the newspapers. The values they bring testify unanswerably to their goodness—and the pub-lic's belief in their goodness.

The time has passed when transient novelties can lead a thoughtful buyer to overlook the great essentials of motor car worth. A few of these essentials, outlined above, go far to explain why Dodge Brothers name is accepted, the world over, as the hall mark of dollar-for-dollar value.

"Why I Should Vote Conservative"

CHILD LABOR

is a smear of blood and tears across the face of civilization

Goods made by child labor in foreign countries freely enter the Canadian market under our low tariff policy. We prohibit the products of convict labor-Why not those of child labor too?

> Clean, up-standing Canadian workers - heads of families where the children go to schoolneed decent living wages, and should not be asked to compete with the starvation pay of child labor in foreign countries.

> > Keep out the products of foreign child labor and foreign sweat-shop labor. Give our adult Canadian workers jobs that will support Canadian standards of living.

Seven times as Canadians moved to the ited States since January 1st, 1922, as were killed in the Great War

> Here are the official figures issued by the United States Bureau of Immigration. Washington, D.C.

Calendar Year	Number of Canadians officially admitted to the United States		
1922	62,289		
1923	181,973		
1924	159.184		
1925 (to J	July 31st) 44,988		
	448 434		

Remember—These figures only indicate the number of Canadians officially admitted to the United States.

How many more thousands slipped across the boundary and avoided paying the head tax?

How many more thousands went to the United States on a visit and forgot to come back?

Why did these Canadians leave their country?

Read the startling statistics in the next column!

Factories failing and closing down force Canadians to leave Canada seeking work

Manufacturing Failures

Calendar Year 1922	Failures 857	Liabilities \$39,080,791
1923	792	31,791,332
1924	625	36,542,658
1925 (to Sept. 30th)	412	16,838,677
	2686	\$124,253,458

These figures appear in Dun's Record of Commercial Failures in Canada, pub-lished by R. G. Dun and Company, a recognised authority.

Think of it-2686 Manufacturing firms failed in Canada since January 1st, 1922.

On the average each of these Canadians now in the United States earn at least \$1000 a year which they spend for food, etc.

These Hundreds of Thousands of Canadians are Lost-

to Canadian farmers as buyers of food to Canadian merchants as customers to Canadian professional men as clients

to Canadian property owners as buyers and tenants to Canadian Railways as passengers and pro-ducers of freight.

Protection will re-open the factories Protection will bring back the exiles

average citizen. Their theories have only one thing against them. That is that they don't world

Let there be harmony in things essential—liberty

IMMIGRATION KEPT OUT

r, and that it is being kept out because of the macing tariff policy of the King Government, ms to be pretty well understood. But some geven more important than capital is being tout for the same cause. That is immigra-

And were now in important than optical is being a price of rive from an optical in being a price of rive from an optical in being a price of rive from a conseq. That it immigrates does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the price of the toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice better that the decision does to pask a study of toriff schoolice and the force constitution. The constitution of the construction of the same are explaintation of the construction. The same that they do not have the different three the same that they do not have the different three t ound for a free trade country, nor for a low sriff country in which to establish himself. When the news goes out to the world that Can-da has returned to the principles of the Nation-l Policy which was responsible for her past profind the jobs waiting for them. But until Cana da takes that step, she will look in vain for the migration that is so necessary to the solution her most pressing problems.

WHEN CANADIANS WERE NEEDED

It is rather ungrateful for Mr. King's friend complain that their leader is being made the abbor Mr. King's political ideas and ideals have concentrating their fire upon his fiscal policy They have not been discussing how he spent his time in the years that Canada was fighting for her catistence. They have generously assumed that Mr. King had good reasons, as had many other loyal Canadians, for not donning Khaki and going to the front. So far as we know Mr. King did not feel it incumbent upon him to make any statement in the matter, until a heckler attacked him at Winnipeg, and we know of no good reason why question should have been raised.

at there ought to be no objection to o ng that in those herrible years Mr. King might g tast in those periods years Mr. King might riely have found some work to do at home. It sed not have been work calculated to help for-ard the war. But there were domestic problems those years as well as military problems with

loing anything that might have had its or

NO UNDUE PROFITS Mr. Meighen has made the definite promise that

cons note not helicer it in possible, and sp. makes poil of prosperity, non attempt to do what is, for him, the impossible, and sp. makes good of prosperity, non attempt to do what is, for him, the impossible. When factories are justy, when cities are a list the former Medipum Government, amplified, ready, modery highly absorbed fundament. It is, the factories are in a speech as Millers, it to doing remarked and applications, the cities that the contract of the will of the part of the government, to cacca any unfair raising of prices. Sir Henry said that already through the Income Tax department, the government knew pretty well the income of man factures and to a certain extent their produc

A DEMAGOGUE'S DEVICE

Instead of discussing the pressing problems of the day, Mr. King is fond of saying that the great beed is for Canadian unity. He is understood to fty, we may expect a new rush of immigrants, the day, Mr. King is fond of saying that the great w factories will be opened, new developments beed is for Canadian unity. He is understood to tartaken, and an army of workers will come to be willing to make the most extraordinary sacrifices to achieve unity, and Hon. Mr. Massey has

OUR POLICY WHICH LED TO VICTORY OUR BATTLE CRY:— "PROTECTION TO HOME INDUSTRIES."

RESOLUTION by Sir John Macdonald in the House of Commons, for the National Policy, and by which he swept the Country:
"That this House is of opinion that the we fare of Canada requires the adoption of a National Policy, which by a judicious read-Justment of the Tariff will benefit and foster the Agricultural, the Mining, the Manufact-urer and other interests of the Diminion; that such a policy will retain in Canada thousands of our fellow countrymen, now obliged to expatriate themselves in search of employment denied them at home; will restore prosperity to our struggling industries, now so badly de-pressed; will prevent Causda from being a sacrifice market; will encourage and develope an active interprovincial trade; and moving (as it ought to do) in the direction of the reciprocity of Tariffs with our neighbors, so far as the varied interests of Canada may demand, will greatly tend to procure for this Country, eventually Reciprocity of Trade".

Here and There

What party is in favor of Canadian disunity? What party is trying to set East against West, or English-speaking Canadians against French-Canadians? There is no such party. There is no such affort. Mr. King is defending Canada "Canada has 'the greatest oppor-tunity of any community on the face of the earth," stated St. Loe Streeky editor and proprietor of the Londor Spectator, in the course of a receiv-address before the Canadian Club Canadian unity an issue in this campaign. Can-cilin unity was established in the first place and for all time to come by the National Policy. If It has been threatened since them, the threat has been annexation disguised as receptority. Canadians do not send to verry now about such an abstraction at Canadian unity. What they have to worry now is their jobs, and their

mineral assets.

Between 20,000 and 25,000 min are expected the wirk in the forests of the Province of Guideo during the coming winter, according to the chief forester of the province. It is attiguted there will be a good assessing the puly and paper products, but that the cut of imake will not be so heavy owing to the low price prevalent for sawn rimber.

Cordial relations between the ports of Quobe and Liverpool were emphasized recently by the exchange of cables by the respective Chief Magatanies of the two cities. The Chief Chief

Rev. Dr. Malott Shows Dan-gers Both to Young and Old

SOME PAPERS WICKED

Scandalous Sunday Edit orials Among Things

Love of money and pleasure, publi-ation of sandalous Sunday newspap-rs and the reading of them, and as-citation with undestrable company was some of the prevalent cytle to

ore noticeable, than ever today, the monetary attraction which in kinds of evil doing held out, was unfortunate but nevertheless

"Money is very nice to have and cessary too, to keep the roof over r heads," said the pastor, "but tho essent day tandency on the part of me people to make money anyway objectionable."

To add interest for the young folk, the paster illustrated his sermon by first showing the children and con-pressation a number of present day trape used by man to trap animals.

CAR SKIDDED 78 FEET AFTER IT STRUCK WOMAN

Oshawa, Oct. 26.—Dragged many feet by the car which struck her, lifts. Amanda Vallieries, died from her hujuries while being runhed to the Oshawa General Hospital.

the Charwa General Hospital.

The accident occurred in front of her home on the Kingston Road, east of Harmony and in front of the Onhawa Missionary College. It was witcessed by her fifteen year old zon, Calvn, and two of his companions who were feal leaving the entrance to the college. Mrs. Valleres was pood-bye, with when she had been motoring during the afternoon, when

MEN OF THE NORTHERN ZONE

Oh, we are the men of the Northern

h), we are the ness of the Northern Tones.

Tones are the peaked in our mouth?

If ever a Northman lost his throat,
the the could be consulted to the throat his could?

Nay, nay—and the answer blent in chorch is southward sent;
in chorch is footberners' conquerting stell footberners' conquerting stell footberners' conguerting stell footberners' confine when has a footberners' placed

In he heel?

On the men of the Northern Zone I'm.

Ob, shall we shatter our ancient Ob, shall we shatter our ancientamme,
And lower our patriot creet;
And leave a horizage dark with
Anne.
To have,
To have,
To have and the sanwer librat,
With a chorus is notthward sent
We take the free-and so are we,
Let your fellow fronces alone;
For a Southerne never shall place his bed!
On, the ness of the Northern Zone."

Contributed by Cotario Departs Agriculture, Toronto.)

Our lives are as free as the brosses—
that blow
that blow creats of our nativeplaces.
We never will beed the knee,
Well always and are be free,
For libety reigns in the land of the
Our brothers are round her throne;
A Southerme never shall place his
beed
On the mass of the Northern Zone.

FROM LABOR PARTY RURAL DEANERY

DESPOYA CARRINET MIPTS DOTTED AT THE DESTRUCTION OF THE DESTRUCTION OF

October 27th, 1925.

TO THE PARMERS OF ONTARIO.

740 7

On every platform from Halifax to Vancouver, I have declared in identical language the Conservative Platform of a National Policy of Protection for farmer and factory-worker alike.

The farmers of our Jountry are shut out of the United States' market by a prohibitive tariff, while American farm products, on a low Canadian tariff, are dumped into your own home market in unfair competition with you.

As a result there were imported into Canada in the fiscal as a result there were imported into usneds in the fils.

year ending 5lst March, 1924, to be sold in competition with you

\$149,201,23T of farm products and these include only such farm

products as are raised in our own country. (See Trade & Commerce Reports p 1420).

The Conservative party is pledged to protect you, and that pledge will be carried out to the letter by placing on farm that pledge will be carried out to the letter by placing on Yarm products entering this country from the United States a tariff equal to theirs. Furthermore, the Conservative party is pledged to assist you in well-considered schemes of co-operative marketing.

In short, the National Policy, as declared by the Conservative party, is to foster the farming industry of this country by dovernment assistance in the provision of adequate tariff protection, and by dealing on generous lines with the difficulties now experienced by you in marketing your products at stable and remunerative prices.

Wishing you every prosperity, I am,

Yours sincerely?

(ARTHUR MEIGHEN.)

Tumon the Conservative Candidate. 4t is the Conservative Party which will drag Canada out of the mire, of bad times and shiftiesmens and atagasation that has kept it during-the past four years from making that propress it should, from making any real-progress in fact.

Not one of the Liberal speakers in the country and particularly not the Premier, Mr. Makhmale

King, has been able to announce any constructive policy. Mostly Liberal speakers have been apol gists for things that were not done.
Cenada must have done with such people

All indications of the moment point to a gre-

Conservative victory.

Here in South Hastings our duty is to
Mr. Tumon. Make his majority decisive.

PROTECTION AND PRICES

Zealous disseminated by the Liberal forces is a mistation to the effect that a Protective Tariff re sults in increased prices. This contention is painfully unconvincing when examined in the light of Canada's experence with protected goods. Take, for instance, the automobile, which has always enjoyed protecton of 35 per cent, and the price of which today, as compared with the price > decade ago, clearly establishes that a protective tariff does no more to increase prices than a

At The Parting Of The Ways---

On Thursday, October 29th, 1925, the Men and Women of Canada will be called upon to decide this questi whether to continue the King Liberal Government or to have a definite Conservative Government such as Mr. Meighen proposes.

ven weeks ago one of the best known men in the New England States informed me at the Union Station in Toron to that it was the opinion in the United States that the King Government had sold out to American Manufacturers. This man is well known to business men throughout Canada (name and address will be furnished upon request.) -

"Cameron," said a prominent financier to one of his staff, "We are glad to give you this promotion. The good judgment you have shown in handling your own finances satisfies us that you are ready to assume greater re-sponsibility for this firm.

"Your endowment policies, for example, indicate not only your desire to save but also keen discrimination in choosing the best possible medium."

Cameron is but one of many young men who have won favor in the eyes of their employers by proving their ability to invest money wisely. And he is not the first man who has climbed to success by reason of the self-confidence that comes from having a substiputal reserve fund early for emergencies.

A North American Life Endowment Policy can be one of the stepping stones to success for you too.

NEAR HIS DEATH

To-morrow evening The Intelli-gencer will give the most prompt election news service possible to arrange. Special Canadian Press wires installed in The Intelligen-car Editorial Department will car-ry the progress of the election re-turns as they are compiled and met on the wires across, Canada. turns as they are compiled and put on the wires across Canada. Locally and throughost the dis-trict The Intelligencer has more arrangements for prompt collec-tion of returns. In addition a laskarn will project the progress of the returns on a screen across Front street.

Stores on Front Street Closed Here and There at One Oclock — Both Lock Works to Close—Groceries Mostly Open

Mr. Tummon's Final Appeal

To the Electors of Joseph Hastings!

To the Electors of Joseph Hastings!

Londfeathy appeal for your uppoor as: Election
Londfeathy appeal for your uppoor as: Election
Conservative Candidate in this aplondid countitioners
combined with the youts for Concervative candidates elsewhere thryughout this Dominion will ensure the precons development of Canada and consequent prosperity for the people of both city and countryide. I stand for a Right Hon. Arthur Meighen in his "Canada Fareit" policy, in his stand for a Protective Tastiff, the demand for which comes from all sections of our country.

New Wife jo industry here in South Hastings will read from project staff and greaters, more productive engineering the staff and the property of the prop

ada.

As loyal Canadians you are deeply interested in pre-serving this country-for its own people. Vote as a Can-adian. In that way only will you be doing your full duty at this time towards preserving your great heritage.

The studies cannot not consider the constraint of the constraint o speakers and workers with the best of feeling as

tritish Pair play to all.

The issue was plainly outlined. Electors were

But unofficially it began earlier for the publi understood rather vaguely that an election was likely to follow the 1925 session of Parliament and were rather prepared for Mr. King's words.

The campaign has been made notable by the arry into it of the Hon. Mr. Massey who is run-

ning in Durham and by the entry in Quebe-province of the Hon, Mr. Patenaude.

Canada First Policy is the one that will mes for this fair land an era of prosperity.

he would probably claim credit for it.

There is apparently a belief that is far too mon that the manufacture of political propa anda is legitimate work in an election campaign tles the policy of "anything to win" is a discred itable one in an election campaign. Because people differ from us in regard to political polic-

year loose skirts. Why, we shouldn't do any business unless we altered the style." The rows of male lawyers tittered, and

the judge led gently on:
"Then the object of fashion is to promote

"And the health and comfort of the ladies

"And the health and comfort of the ladies a a second consideration?"
The witness admitted that also, and the court saked who it was that determined what the fashion should be.

"Well," answered the witness, "fashior made in this way: We try as far as possible to after the style every season so as to make people leave off the old clothes and

buy new ones."
"It would be interesting to attend a meeting of the compliators," put in one of

The causes that led to the very serious re-verse for the Liberal Candidate here are many and will take a great deal of explaining. But-partly they no doubt are the very curious faciles

partly only no doubt are the very curious actics displayed as the campaign closed for he host sup-port in the past few days and a good deal of this loss must be pet down to his friends. Mr. Tramon's very pleasing personality made him friands by the hundreds each week; as the campaign progressed and here his he city where he was not hown (as it was sold) he was given a

One very amusing-incident of a meeting in the theatre is now recalled. Mr. Tummon said if Belleville and South Hastings elected him he ald sing. Well, he will must certainly have to

One thing that sided Mr. Tummon measure One tuning that alood Mr. summon measure-ably in the campaign was his fine platform pres-serce. He spoke fairly and calmly and convin-ingly and his words carried great weight. His hearen everywhere saw that here was a man in whom they could with confidence place their

ther in a generation they showed their preference for the Conservative Canada First Policy, and redeemed South Hestings.

It was a good day's work.

THE ELECTION

The vote throughout the country remained btill somewhat indefinite this morning aithough Conservatives had the largest group and the Right Hon, Arthur Meighen is elected in Portage la Prairie while the Right Hon. W. L. M. King is defeated in his own riding of North York.

The vote in Ontario and in the Maritimes was pretty well up to the estimate as sent out from Ottawa but it must be said that the Conse opes in Quebec were not met and the result is distinctly disappointing. Prejudices and not policies were responsible for the vote among the French Canadians.

The slaughter of Cabinet Ministers in Ontario

campaign. Gordon. Graham, Murdock, Tom Low, Massey, King. Quite an imposing list. It was that illustrious one the Honorable George-N. Gordon who made some wise remark four years ago about fallen Cabinet ministers be ing a fine lot of pall bearers. The Honorable George is bearing his own pall this fine morning. Pew Canadians of the better type will regret that orden has been eliminated.

Mr. Marsey had a brief turn in the limelight

and it beat pruty fiercely upon him while it lested. He was too fragile to last in the hurly burly of politics and he can now gracefully retire to his authentic pursuits at Hart House, Toronto, and elsewhere.

The Hon. Tom Low was here a couple of weeks, a year ago. He was ponderous and un-convincing. He did not impress people as any-think very wongerful. He will, pehraps not be

The Rt. Hon. George Perry Graham about the est of the Liberals in the House and the personal friend of everybody is apparently beaten

George will be missed. Perhaps something will be done about it. For not even his worst politi-cal foe, but would be giad to have him there. What will happen at Ottawa remains to be

About Compasses

The invention of the compans is loss in thy slaws of history. It is fare found spatial controlled in a qualitic Clause input which regions with a resistant that the Emperor He-media in 1888 N.O., her forth the army and situated the robble Kines on the plains of Tetendon. But Ethinas pritting the worsy of the conflict, cold the winards, amagicians and severages to his aid who raised a great for in the Kinese with the Santa and the Sa

LED WAY TO NEW WORLD

. The compass appears to have been brought to Europe in the twelfth century, most probably by the Arabians, as it is known that the Arabian and Chinese traders met in the Persian gulf; and on cannot traders met in the Fernian gulf; and on account of its very grat. practical what as a guide in all weathers, it rapidly cause into general use, and mentaled Shristopher Columbus to attack the state of the s

But contrary to story book report, the conpass does not paint north, but more or less to the cast or west at different places. Scientists state that this is because the magnetic poles of the earth are not situated at the geographical poles as shown on our maps of the world; that in fact the north magnetic pole is near Poethia Polix on the Arctic coast of Canada, and the south magnetic pele in South Victoria Land south from

CHANGES EVERY YEAR

It might be thought that the compass would be satisfied to call it a day's work after pointing be satisfied to call it a day's work after pointing in a different direction at each page, but such is not the case for it is all the time changing its direction and never stays put. It marches to the west for many years, then turns back and marches to the east, then reversed again and marches to the west, and in fact changes its mind more oft than any maiden fair, and carries on in a different way in each place. Whether this fickleness is poles, or by something happening inside the garth, or by the sun or planets, scientists have not yet been able to find out.

IMPORTANCE OF MARCH It is very important to know this march of the ompass, especially in Eastern Canada, because compass, especially in Entern Canada, because all the old land surveys in Ontario, Guebee, New Brunswick, Nova Scotla and Prince Edward In[and wave made by compass, and nova-days where it is desired to retrace one of the old lost boundary lines it is necessary to know beforehand what the march of the compass has been alace the time when the old survey was made.

SURVEYS NECESSARY

In order that the company may be used with reliance, therefore, the different countries of the world carry out magnetic surveys to measure its direction, and picture the information on magnetic charts for compass users.

FIRST WORK IN CANADA

Compass information is particularly valuable in such a large new country as Canada, and it is interesting to note that Champlain measured its direction at Halifax about 1604, John Davis in Davis Strait 1585 and Capt, Baffin in Baffin Land 16f6, Capt. Middleton at Churchill and York Factory 1725; while Capt. Cook in 1778 and Capt. Voccover in 1792 measured it along the Pacific coast Later Sir John Franklin 1819-2G and Sir John Lefroy 1848-46 made some anda before 1880.

CÁNADA'S MAGNETIC SURVEY

Since 1880, however, the Typographical Survey, Department of the Interior, has carried on a most extensive magnetic survey in this country in confunction with its other work, at practically in conjunction with its other work, at practically no expense, because the compass direction can be measured in a few minutes when the survey parties are already on "the ground; until it now possesses more than 20,000 measurements, and regularly publishes magnetic maps which pictur all this information for compass users. LEADS WAY, TODAY

LEADS WAY, TODAY.

In spite of the fact that the compass has been known for so long, it is today more widely employed than ever before. It is the sure-die path-finder, the cloud by day and the pillar by night to the sailor affont on the heaving main; the air man above the clouds; the miner far underground in the deepest shaft, ander explorers surveyors trappers, prospertors, ploneers and penetrating the trackless forest, the jumbled bountains, the virgin wilderness and

A FUR COAT

is now the chief article of u lady's wardrobe being worn for about air moeths of ##b year. So when buying why not get that bear hearty garment from a reputable dealer. We build up to a quality not down to a price.

A Well Made SOUTHERN MUSKRAT COAT can be pulchased from \$10.000 up.

Healthful Fruit - Happy Children

Apples and false faces-"Shell Out!"-it's Hallowe'en. Children ask for Apples-beg for Apples duck for Apples. Hallowe'en is the Apple festival.

Have lots of Ontario Apples in the house for the little folk when they make their calls, clad in strange costumes. Engourage this innocent form of Hallowe'en jollity.

At all times give the children plenty of delicious, healthful Ontario Apples. They are nature's best tonic rich in salts and minerals. They keep the children and their elders in tip-top

condition all the time.

National Apple Week All Canada will observe National Apple Week, October 31st to November 6th.

Its purpose is to emphasize the deliciousness of Apples, and their healthful qualities,

Take part in Apple Week by serving Apples, eating Apples, talking Apples. Help to increase the use of this splendid fruit. But see that you get Ontario Apples

But be sure to get Ontario Apples. You will know them by their crisp flesh and exclusively subtle flavour. The quality of the crop is the highest in years. There are no finer apples.

There are plenty of the best Ontario Apples. Your dealer has or can get them. Get your share of them. Thus you will support an important branch of Ontario's

fruit production. For eating, as for cooking,

Ontario Apples are the best and most economical fruit. They are cheaper now than they will be later on. Buy a quantity. They keep good for a long time.

Buy them by the barrel or box

Wilson's

To Truck Owners and Drivers-

Fall Driving-no Over-loads

When the country is wet with fall rains, be more careful of the loads you put on your trucks.

Overloaded trucks churn the foundations of even hard-surfaced roads. Disintegration follows, and a repair job is the consequence. On gravel and macadam roads, the surface is broken down as well.

Increasing use of the highways is being made by trucks and passenger busses. Increasing contributions to good roads maintenance may be expected, fairly, from people thus engaged.

Therefore, it is to your interest that freight and passengers should be transported with as little damage as possible to the highways. Reisonable loads and reasonable speeds are demanded. As maintenance charges will be paid by those who use the roads, this is a matter of self-interest and public spirit on the part of every truck owner and driver. The Provincial Highways Department and the county and township authorities will do the repair work at the expense of road users, but the user can contribute greatly to avoiding the necessity for repairs.

While the Government relies upon the self-interest and good will of truck owners and motorists, the law provides penalties for overloading as for fast driving. Notice is given that these provisions of The Highways Act are being rigorously enforced.

THE HON. GEO. S. HENRY, Minister

An advertisement issued by the Ontario Department of Highways to secure the co-operation of motorists and track drivers. Automobile Clubs, Good Roads Associations and all other public spirited bodies, in abating the abuse of the roads of the Province.

WONDERFUL OVERCOAT FOR \$20.00

The DEANGART was above piece.

They are made of a pure wool cloth-different colors—and lined through the yoke with leather, and good warm Uniter, an we recommend those Coats very highly.

PERCUSOR TO OTTAWA

Will Challenge New Commons To Vote Want Of Confidence Counts On Progressives' Help

Ottawa, Ont., Oct. 31.-Premier King has called a meet ing of his cabinet for Monday.

The latest figures make the following changes in the sition summary—Liberals, Ontario 11; Doubtful, Ontario

to insure. Liberal, Ontario. 11 Deskini, Ontario O. Total laberal 300, Cas. 116; Deskifid S. Olttaw, Oct. 31—With 116 seats and only air remaining in the doubtful column, the Conservatives cannot now secure a clear majority in the next beaus.

In these-circumstances, it is practically certain that Premise in the Conservative Control of the Will have a conference with the Governor-General before making any public pronouncement. But in circles close to the ministry, it is understood that he favors challenging a vote of non-confidence in Parlament. If the House vote segants him, his resignation will necessarily follow.

has resignation will necessarily follow.

The light Hon. Arthur Melghen, Conservative Leader, as cording to the usual practice would then be called upon to form an administration. But it is not likely that he would continue in office long winds and the continue in office long winds of Parliament is not likely to see anything in the way of sweeping legislation. The situation has resulted in the network of the Dominion as majority with the help of the Progressive, Labor and Independents groups which, although not included in the official opposition as it will be continued in the office of parliament, that so long a line of parliament, that so long a line of the office and meet Parliament with his proposal for higher protection, he would be defeated. "Nevertheless whether Presiper King relation office or not, the feeling in political circumstances and the office and meet Parliament with his proposal for higher protection, he would be defeated." Nevertheless whether Presiper King relation office or not, the feeling in political circumstances and the protection, he would be defeated." Nevertheless, whether of lend duration.
